

YaraTera™

CANMIX B

YaraTera™ CANMIX B

Soil-Applied liquid nutrient Guaranteed Analysis:

Boron (B).....**4.0%**
Derived from Boric Acid

Density: 9.9lbs/gal @ 68°F

DIRECTIONS FOR USE:

For best results, use watered-in applications. May be applied via irrigation system or prior to irrigation. Apply proper amounts of water ensuring the product remains in the area of active rooting. Use the higher label rates with surface and flood irrigation. Agitate before use.

Do not mix in concentrated form with any other tank additive without first adding water. Recommended mixing sequence: water, adjuvants, pesticides, YaraTera CANMIX B, other fertilizers then agitate. A standard jar test is recommended before tank mixing.

DO NOT STORE BELOW 40°F (5°C)

FIRST AID:

Eye Contact: Rinse with plenty of running water. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Inhalation: If inhaled, remove to fresh air. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Skin contact: Wash with soap and water. Get medical attention if irritation develops.

Ingestion: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if adverse health effects persist or are severe.

NET CONTENTS:

275 gallons/1039 liters

NET WEIGHT:
