

"STOP, READ THE LABEL BEFORE USING THE PRODUCT"

"PRECAUTIONS AND WARNINGS REGARDING USE"

Use proper personal protective equipment: second-skin clothing (cotton long-sleeved shirt and long pants with elastane); waterproof overall resistant to solid and liquid particles; tall rubber boots with thick sole; respirator with filter for solid particles; safety glasses or face shield; broad-brimmed hat or cap; and neoprene gloves.

At the end of the product application tasks, the worker must remove the personal protective equipment for it to be washed and stored in the workplace. The second-skin clothing must be washed separately from the personal protective equipment to avoid contamination. After applying or handling the product, the worker must shower and put on clean clothing. Under no circumstances should the worker take home either the clothing used in the workplace or the personal protective equipment.

"IN CASE OF DISCOMFORT DUE TO CONTACT WITH THE PRODUCT,
TAKE THE PERSON TO A DOCTOR"

"FIRST AID"

If swallowed: if the person is conscious, induce vomiting by inserting finger in throat. Rinse mouth and throat several times with clean water. If the person is unconscious, make sure he/she can breathe without difficulty; do not induce vomiting, and do not put anything into the person's mouth. Seek medical attention immediately.

If on skin: if necessary, remove clothing/footwear and wash the affected part with plenty of clean water for 15 minutes. If skin irritation persists in the affected area, seek medical attention immediately.

If in eyes: rinse cautiously with water for at least 15 minutes while keeping eyes open; occasionally, lift eyelids. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation/burning sensation persists, call an ophthalmologist immediately.

If inhaled: move the person into the fresh air or a well-ventilated area and ensure the person is comfortable and can breathe. If the person is unconscious, make sure he/she can breathe without difficulty, and do not put anything into the person's mouth. If necessary, and if trained to do so, conduct mouth-to-mouth breathing with a handkerchief in between. Seek medical attention immediately.

"DIRECTIONS FOR USE"

GENERAL INFORMATION: ZnKelp® is an organomineral fertilizer made from extracts of fresh seaweeds and mineral salts with the aim of providing Zinc to agricultural crops. The application of ZnKelp® via irrigation allows for the absorption of the Zinc through the roots to prevent nutritional deficiencies; consequently maintaining the Zinc within the levels required by the plants.

APPLICATION DOSE

CROPS	DOSE	APPLICATION
Vegetables: Bell pepper, tomato, cucumber, grand cherry tomato, eggplant, pepper, squash, pumpkin, zucchini.	0.25 – 3 gal/acre	Foliar and soil 7 – 10 days
Leafy vegetables: Head and leaf lettuce, spinach, celery.		
Stone fruit: Nectarine, apricot, peach, plum, almond, cherry, grape.		
Citrus: Orange, lemon, tangerine.		
Berries: Strawberry, caneberry, blueberry, raspberry.		
Cole crops: Broccoli, cauliflower, brussel sprout.		
Pome fruit: Apple, pear.		
Roots and tubers: Potato, garlic, onion, shallot, carrot.		
Subtropical: Avocado, guava, kiwi.		

*For crops with high zinc requirements, the adjustment of doses and application periods is recommended with support of equipment and technical staff specialized in plant nutrition.

METHODS FOR PREPARING AND APPLYING THE PRODUCT

Open the container in the location where the product will be applied. The adequate personal protective equipment specified in the "DIRECTIONS FOR USE" section of this label must be put on for this step.

Shake well before opening. Twist the lid until the safety ring breaks and pour the contents into a measuring container up to the suggested dose. Dissolve the dose in no less than 20 liters of water for each liter of product and mix thoroughly for a homogeneous solution.

Inject the solution into the irrigation system using the methods that are traditionally employed for the application of fertilizers. After application thoroughly rinse the drip lines with clean water.

Always clean and calibrate the application equipment before using the product. Avoid applying ZnKelp® if there is high probability of rain.

GUARANTEE

ALGAS Y EXTRACTOS DEL PACIFICO NORTE AEP S.A. de C.V. guarantees the correct composition and net content of the product. However, it is not responsible for any misuse of the product, nor for any damage that may occur if the user does not follow the recommendations on this label.
