

GROW  MORE®

pH Down
30% H_3PO_4
FOR HYDROPONICS

DIRECTIONS FOR USE:

Mixing this product with water, acid or incompatible materials may cause splattering and release of heat.

Use 1 teaspoon (5cc) of pH Down per 10 gallons (38 Liters) of nutrient solution. More or less may be needed, depending on pH of make up water, concentration of fertilizer in nutrient solution and rate of plant growth.

NOTICE:

Buyer assumes all risks of use, storage or handling of this material.
