THE INFORMATION WE COLLECT

We collect both personal and non-personal information from you online.

For the purpose of this Website Privacy Policy, when we use the term "personal information" we mean information that is collected in conjunction with your name. We typically collect such information by requesting that you complete an online application. When we use the term "non-personal information" we mean information that is not collected in conjunction with your name. We may use the following technologies to collect such information:

- **Cookies.** Many sites use "cookies," which are small text files that reside on your computer to identify you as a unique user. We may use cookies on our Sites to allow us to, among other things, measure activity and to personalize your experience. For instance, cookies may enable us to remember your viewing preferences without requiring you to re-type a user name and password. Cookies may also allow us to track your status or progress when requesting products, services, or information. If you choose, you can set your browser to reject cookies or you can manually delete individual or all of the cookies on your computer by following your browser's help file directions. However, if your browser is set to reject cookies or you manually delete cookies, you may have some trouble accessing and using some of the pages and features that are currently on our Sites, or that we may put on our Sites in the future.

- **Web Beacons.** A web beacon is an electronic file on a Web page that allows us to count and recognize users who have visited that page. Among other things, a web beacon can be used in HTML-formatted email to determine responses to our communications and measure their effectiveness. You can generally avoid web beacons in email by turning off HTML display and displaying only the text portion of your email.

- **Internet Protocol (IP) Address.** As you enter our Sites, we capture and retain the IP address of the device you are using, such as a personal computer or a mobile device.

- **Location and Usage Information.** If you use our mobile application or access our website using a mobile device, we may collect information concerning your location, information about when an App is launched, individual session lengths for Apps, or why an App may not be working.

Do Not Track Header: Some web browsers and devices permit you to broadcast a preference that you not be "tracked" online. At this time we do not modify your experience based upon whether such a signal is broadcast.

HOW WE USE PERSONAL INFORMATION

Our primary purpose in collecting information about you is to provide you with products, services, and information that we think may be of interest to you. We may also decide to use information about you to track how you use our Sites. In addition, we may aggregate the information that you provide with the
information that other users provide in order to conduct research, analysis, or studies for our own purposes (i.e., not related to providing you with specific products or services).

We may decide to send people who provide us with their email addresses email. If you decide that you do not want to receive commercial emails from us, you can “opt-out” from receiving such emails by clicking on the “unsubscribe” link provided at the bottom of every commercial email. Please note that if you choose to opt-out, we will still send you e-mail relating to specific products or services that you purchase, or e-mail that we believe is pertinent to any communication that you have sent to us, or relationship that you may have with us. If you decide at a later time that you would like to receive commercial emails from us, you can re-add yourself to our communication list.
