

Quality Augments Our Brand

By Continuously improving our Operations, Design and Supply Chain Aquantia maintains its leadership in developing and marketing advanced Cost-Effective Ethernet Solutions.

Quality Improvements Increase Profitability

Improvements are achieved through defect prevention, detection and effective corrective action throughout our processes.

Customers Recognize Value and Reward Companies that Exceed Expectations

Aquantia will utilize external feedback from its Interested Parties (Customers, Suppliers, Distributors, Internal assessments) and Market defined compliance to Statutory or Regulatory requirements, for our improvement initiatives.

These guidelines are advocated by Faraj Aalaei, Chairman & CEO

About Aquantia

Aquantia is a leader in the design, development and marketing of advanced, high-speed communications ICs for Ethernet connectivity in the Data Center, Enterprise Infrastructure, Access and Automotive markets. Aquantia products are designed to cost-effectively deliver leading-edge data speeds for use in the latest generation of communications infrastructure to alleviate network bandwidth bottlenecks caused by the growth of global IP traffic and in emerging and demanding applications such as autonomous driving. Aquantia is headquartered in Silicon Valley. For more information, visit www.aquantia.com.
