

Echeveria Rosy

Echeveria 'Rosea'

- I'm a stunning succulent with chalky, blue-gray leaves. The tips of my leaves are wavy and edged in a rosy pink.
- I'm a slow grower and a perfect 'set-it-and-forget-it' houseplant. Sit me on a windowsill that gets partial to full sun and I'll be happy!
- Water me just enough to keep me from wilting during the colder seasons, and only once a month in the summer.
