

Pachyveria Empress

x Pachyveria 'Myrtilla'

- I'm a pretty perennial succulent with gorgeous round leaves that vary in color from green to red to pink.
- I'll do well in gardens and containers alike; just don't leave me outside when it frosts. I'd rather a sunny windowsill during the colder months.
- I love full sun but can easily tolerate partial sun, and I appreciate water whenever my lower leaves start looking a little wilted.
