

BIF 90 Day Email Sequence

Subject: [BIF –Cool Tool to Help Choose Niche Domain Names]

Day 49

Hey all my fellow Base Income Formula Folks!

I ran across this site quite by accident. It's worth sharing.

Sometimes when I'm looking for domain names for a leased site, I have to search and search to find just the right one, especially if the most obvious one is not available.

By "the most obvious," I mean, if you live in Rockville, and you're setting up a plumber site, you'd search first for "RockvillePlumber.com" I've even turned it around sometimes and used "PlumberRockville.com"

But, if all those are already in use, you'll need other ideas.

Introducing: <http://FlawlessURL.com>

You can enter your keywords, Rockville Plumber, and then choose "Popular Prepends" or "Popular Appends." Then click on GENERATE DOMAIN. You can watch as it starts to list ideas.

Using this example, on Prepends...I found TopRockvillePlumber.com and also BestRockvillePlumber.com

Now, on a search for Popular Appends, I saw: RockvillePlumberPro.com, and RockvillePlumberOnline.com .

Try this out and see what you think. BTW...you are offered the option of registering (purchasing) the domain from here, but I never do. I use my Godaddy and Namecheap accounts.

Committed to Your Success!

Jeanne
