

BIF 90 Day Email Sequence

Subject: [BIF –Fiverr GIG recommended for Citations]

Day 50

Hello BIF Friends!

Sue and I have always struggled with getting lots of citations built quickly and most importantly ACCURATELY!

She tried some Fiverr gigs and she found one that did an outstanding job. She was willing to share his information.

Here is what she posted in the private Facebook group, in case you missed it:

“I used habib1jnu on Fiverr to do 30 citations. He did a great job. Many of the citations are the top directory sites. He gives you a complete list with logins. For \$5 more he will do a total of 50 sites. Well worth it.”` Sue White

I’m going to give it a go for myself. Citations are almost always a bottle neck – either too slow or too expensive. I hope the guy isn’t so overwhelmed with all of our business that I can’t find a place in line with him! – LOL

Committed to Your Success!
