

WORKING WITH JAMES WEDMORE WAS THE BEST DECISION THAT I HAVE EVER MADE...

SHERRY HEMSTREET
(Founder, Psychic Millionaire)

Working with James Wedmore was the best decision that I have ever made in my business, after going into business. I was at a breaking point, crushed under the weight of overwhelm and hustle. It wasn't a good place to be and I almost threw it all away. I made a choice to work with him and I committed full on from day one. This consisted of tearing my business apart - something very scary, and recreating the business of my dreams. In 6 short weeks, I had a newly constructed business, top to bottom and inside out. That was the week I launched Psychic Millionaire and had my first ever \$50K week. I had a \$50K week without writing to my list OR a sales page. With his support I created a program that sold itself, quickly. In just 6 more weeks I had created \$100K, filling my program at the beta level without any Facebook ads or advertising.

JAMES IS THE REAL DEAL...

MEL ABRAHAM

James is a unique blend of experience, results, and transparency. He has achieved incredible results on his own but then he reduces them to understandable steps that are easy to execute and get results from. I just completed a beta launch of a new program and used many of the strategies I learned from James. We were able to achieve a 65% conversion rate on some of our ads and ultimately created a six-figure launch in 60 days. James is the real deal with real-world knowledge and experience and heartfelt caring about what happens to you. He is open, transparent, and giving with his knowledge. Thanks James!

I just couldn't see what else I had to offer that allowed me to transform the way I was working and had zero confidence in my ability to get the kind of results I saw so many people singing about in my business groups. In the space of just three days following my first call with James, I mapped out a brand new flagship offer, an entire sales funnel to support the launch, and my first ever webinar presentation. When I closed the cart just a few days later - I tallied sales of \$21,252! Not bad for an impromptu 'non launch' launch. It was like magic money that appeared to show me that things really could be different. Most incredibly, I knew right away this was only the very tip of the iceberg. All I can think today is - it's FINALLY MY TURN. I'm finally the person who can post the epic results and celebrate the freedom I've created for my family. #whatJameSSaid is my new catch phrase.

MY OVERWHELM WAS ELIMINATED AND I NO LONGER FELT LIKE I WAS SPINNING MY WHEELS.

When the opportunity came to work with James in the “Business by Design” course, I didn’t hesitate. I had just launched a new online info product business and I was really struggling with how to get it off the ground. I was spending time blogging, learning email marketing, shooting videos, and trying to imitate every successful marketer I came across.

The first thing James taught me was how to FOCUS. Once I became clear on what my goal was, I eliminated all activity that wasn’t conducive to that goal. This was a MAJOR source of comfort because for the first time in my business, my overwhelm was eliminated and I no longer felt like I was spinning my wheels. For the first time in my life, I now have a scalable business. I’ve followed James’s advice to a T on how to have a successful product launch using webinars, and each week my attendees and sales increase. But best of all.... My confidence increases. My belief increases. I have 100% certainty that I will obtain my financial goals. And most importantly, I have a map and a mindset that I will apply to ALL future launches and other parts of my business. Thank you SO much, James!

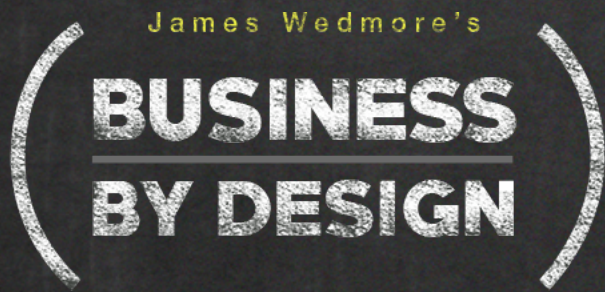

I'M ACTUALLY WATCHING ALL MY DREAMS COME TRUE.

CHRIS VON DER MEHDÉN

Less than a year ago, I was banging my head on my desk trying to figure out this whole internet business thing. I had a great message, something I was very passionate about teaching the world, but no one seemed to be listening. The first thing James did was simplify the bizarre world of online business for me. I began to understand how everything worked and how all the actions I took could work together to build my business. I went from wondering what the heck I should be doing to having a clear action plan and sequence of implementable steps that I could see working as I began designing my business. Fast forward a few months, I'm teaching people what I'm passionate about and changing lives. My message is reaching thousands of people each month through articles and social media, I've been interviewed on a top podcast, and booked to speak at a live event. I have a calendar of live workshops lining up including an international speaking engagement, and I've just started getting those first emails where I wake up, and people have bought one of my courses. My business machine is up and running, it works, and now I'll be following James' advice to scale it up. I'm in that place right now where I'm actually watching my dreams come true. I'm amazed at how fast things are moving, and it's only been months. I can't wait to see where I'll be in years.

I WOULD NEVER HAVE RISEN TO THE CHALLENGE WITHOUT BBD!

ERIC SOLOMON

James, where to begin? Since BBD Webinar #1, I have started a new venture with a partner and together we have booked nearly \$100k of new business - with another \$40-\$60k worth of proposals in the works. I would never have risen to the challenge without the insights, techniques, and confidence gained through BBD! One day you're going to get a big fat hug from this New Yorker whose life you changed!

I MADE NEARLY MY ENTIRE PREVIOUS ANNUAL SALARY IN ONE 3-WEEK LAUNCH.

BRITT SEVA

(Founder, BrittSeva.com)

My total sales for the entire launch are \$58,238. I'm blown away. I launched in November and brought in \$21K. Launched in March, repeating the exact same format, \$22K came in. I meet you and nearly triple my launch. I'm serious, and you should change your job title to "James Wedmore, Life Changer/Dream Maker," ASAP ;-) Just one short year ago my entire annual salary was \$60,000 and had been for 3 years with no hope of a raise. I launched an online course with a hope and a prayer, you gave me the chance to learn your systems, and I made nearly my entire previous annual salary in one 3-week launch. THIS is what I dreamed of. THIS proves to my family that I'm doing something right. THIS moment today allows me to continue pursuing my dream without be nagged about getting a "real job" again. I could go on and on, but I'll instead just say for the 100th time, thank you.

I CAN HONESTLY SAY THIS COURSE HAS CHANGED MY LIFE.

When I signed up for Business By Design I was really struggling with a lack of focus and being overwhelmed. I knew where I wanted to go but I wasn't sure how to get there. I had pieces of the puzzle but I couldn't quite figure out how they all fit together. This program finishes the puzzle. The pieces are all in place and the picture is beautiful. Thanks to James my new mantra is "my success is inevitable." This year I have grown my list from 10 to 350. I have gone from being self-employed to being an entrepreneur #Girlboss. I kept wanting to wait until everything was perfect and James pushed me to take action. And now I have my first product to sell! James helped me to streamline my ideas and realize I didn't have to finish everything at once; but I wasn't finishing anything by jumping around. I had to pick something and FINISH. And that's exactly what I did. I'm in the process of creating my next online course. Now that I have a specific plan to follow I feel so much more confident in my ability to create and launch a product. I am so excited for the future and so thankful for James and the time he has spent on helping me get clear and focused. I can honestly say this course has changed my life. Forever grateful.

JAMES WEDMORE IS THE BEST TEACHER IN THE ONLINE BUSINESS SPACE...

SUNNY LENARDUZZI

I have hired coaches and taken a variety of online courses - but it wasn't until I found Business By Design that everything truly clicked. In my opinion, James Wedmore is the best teacher in the online business space - not only because he speaks from a lot of experience and is actually proof that his systems work - but because he genuinely cares and wants his students to succeed. From breaking down the 4 types of revenue models for any online business to actually sharing sales funnel blueprints, this course is detailed, tactical, and a true game changer. I can't recommend it enough!

I WENT FROM MAKING JUST A FEW HUNDRED DOLLARS TO BEING ABLE TO QUIT MY JOB...

KRISTA KING

(Founder, KristaKingMath.com)

James knows online business, and more importantly, he knows how to teach it. Within a few days of meeting him, he figured out exactly where my business needed to go. With his direction, I launched an online school and went from making just a few hundred dollars a month on YouTube... to being able to quit my job and work full-time helping people with math (of all things :D). I can't thank him enough!

I NOW HAVE THE FREEDOM THAT COMES FROM BEING ABLE TO MAKE MONEY ON DEMAND.

RICK MULREADY
(Founder, FB Influence)

I've been working with James since 2013, when I had only 6 months left before my savings from my corporate job would run out. I didn't have anything to sell. I was working really hard, but floundering on all fronts. James helped me realize that I could use my corporate experience with social media to create a course on FB Advertising. I thought, "Who am I to be teaching that?" James and I worked on confidence-building exercises and set an annual goal of \$100k. My first launch generated \$30k and by the end of the year I surpassed my annual goal to reach \$110k. Last year I made \$400k and I'm on track to do \$1m by the end of this year. I don't have to worry about money anymore because I now have the freedom that comes from being able to make money on demand. Being an entrepreneur now, I feel more in control, I dictate what I'm doing and how I'm bringing in my money.

BEFORE STARTING BBD, I NEVER COULD HAVE IMAGINED MAKING \$20K ON MY FIRST EVER LAUNCH.

THERESA LOE

(Founder, Living Homegrown)

I'd already been through B-School and I had laid the groundwork for my business, but I had been sitting on my first course idea for months. I had not sold anything yet. I was getting in my own way. At the time I didn't realize that my perfectionism was really just fear (I feel James really called me out on that in his training AND showed me how to overcome it, something that will serve me in all areas of my life.) I was waiting for a map with a GPS that would show me how to get the business I wanted. I wanted to "see" where I was on the map and exactly where I needed to go. But I also thought I needed to know the exact steps to take on that map. I was feeling overwhelmed by choices and decisions and wanted to know the straight-line path to get there. James's training convinced me to leap (launch my course), even before I finished the course. I put together a sales page and launched my first course to my current subscribers using just an email sequence and one behind-the-scenes video. I did this BEFORE my course was made and I knew that leap would force me to create/finish it. My hair-scary goal was \$10,000 in sales. BUT INSTEAD... I ended up making \$20,467 on my first 10-day launch! And I did this with just emails and a \$97 course! And although I was mostly launching to my list, I also did my very first round of FB image ads and grew my list by 1500 people in roughly two weeks. Before starting BBD, I never could have imagined making \$20k on my first ever launch or doing more than one launch in my first year. I am forever grateful to you and your training for that.
