Instagram is the best way to find ideal customers, grow your business, and quickly increase profits.

A recent study showed that 300 MILLION users are in the app every.single.day and it boasts the highest engagement of any other platform. This means people are:

- Excited to see fresh content.
- Searching for ways to make their lives better, enriched, and entertaining.
- Wanting to connect with new accounts they love.

Instagram unrolled its new algorithm and more than a few business owners panicked. Photos are now shown based on a user’s preferences...so how can you guarantee your photos are the first to be shown?

ENGAGEMENT.

The more followers like, comment, and share your Instagram photo, the more relevant it becomes, resulting in more people seeing it.

But what happens if people aren’t engaging with your Instagram posts? How can you ensure you account gets ranked at the top? How can you find your dream customer and ensure they’re engaging with you?

Beyond that, how can you get more followers in the midst of these new changes?

I want to introduce you to one of my good friends (and Inner Circle Mastermind Members!) Jasmine Star!
