audio - Samone Thomas Blakely - Client Success Story.mp3

Oh you help me make my business better because you pretty much helped me build it from the ground up.

If you really think about it, I was with you for lunch your class helped me realize that just because I didn't sell B2B doesn't mean that I can't make a profitable living off of selling of a course online. So you made that dream, you watered that that seed that was planted before, and when you pushed me to go to mastermind like I'm so grateful that you did decide to email me just because I was just going to go thru the self study and the mastermind was amazing.

I made so much progress in just the mastermind alone with with the opt-in, the list, like you challenged me to be on my list. I started building my list and... you pushed me out of my comfort zone and limiting the amount of time that I worked on my opt-in. And then you offered I think it was your class and then I was challenge even more.

And, when you talked about had an opportunity to work with you I really want to jump on it. I didn't know if I could afford it but I was

already willing to just do it because and what else...it was like five months. I had already progressed so much I had open me a Facebook group that everybody was loving and then jumping into this mastermind group... I've met some friends and I actually have learned a lot about myself and what I'm capable of in business.

And, I feel like I can really do this. I can eventually leave my job. Of course I still have mindset issues. But, I have tools and resources. And you've pushed me and you continue to push me and I'm looking forward to next year, to keep pushing.
