# CHRONOMITE® ELECTRIC TANKLESS WATER HEATERS

## HOT AND TEPID WATER WITH A SNAP OF A FINGER!

Since 1966, Chronomite Laboratories, Inc. has been the innovative leader in providing electric tankless water heaters. Chronomite Founder, Bob Russell, coined the word Chronomite, based on the Chronometer, a precise watch that keeps correct time despite environmental changes.

Bob envisioned the creation of a company that provides reliable electric tankless water heaters that supply endless hot or tepid water, saving space, energy, water and time.

Our customers come to us because we make sizing water heaters easier. We manufacture instantaneous electric tankless water heaters for mixed-use developments, retail, apartments, condos, institutions, schools, hospitals, hotels, hospitality, public hand washing and safety eye wash and shower equipment. Because it can be difficult, we make it easy. That is what we do.

## FEATURES AND BENEFITS

- Unlimited Hot Water
- Easy to Install
- Low installation costs
- No pressure and temperature relief valve
- Omni® faucet flow control & compression fittings included
- Saves Energy & Water
- 99% Energy Efficient
- Meets CALGreen requirements
- Virtually eliminates alkali calcification
- Uniquely designed element assembly, which allows flow through abrasive action of water and creates a self-cleaning feature, eliminating alkali calcification build-up
- Product Listings  
UL, CSA & HUD, IAPMO    
- ADA Compliant 
- Digital microprocessor technology
- Ultra-quick response times control hot water temperatures 120 times per second, eliminating the concern of scalding and the need for mixing valves (Instant-Flow® Micro™, C-Micro and Instant-Temp® heaters)
- Made in U.S.A.

## IDEAL APPLICATIONS

Manual handwashing faucets, kitchen sinks, bar sinks, utility sinks, and hand set showers.

Chronomite Instant-Flow® SR Low-Flow Electric Tankless Water Heaters are designed to provide reliable instant hot water when installed at the point of use. This instant electric tankless water heater is perfect for lavatories and sinks. It is ideal for two-handle and single-handle faucets and is the perfect under-the-sink water heater. The SR series is designed to provide a predetermined temperature rise to the incoming cold water and to increase the water outlet temperature by manually increasing/decreasing water flow.

Instant-Flow® SR Electric Water Heaters meet the ADA barrier-free requirements and are 99% energy efficient.

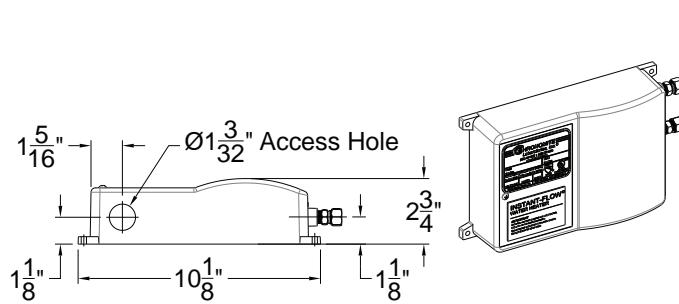

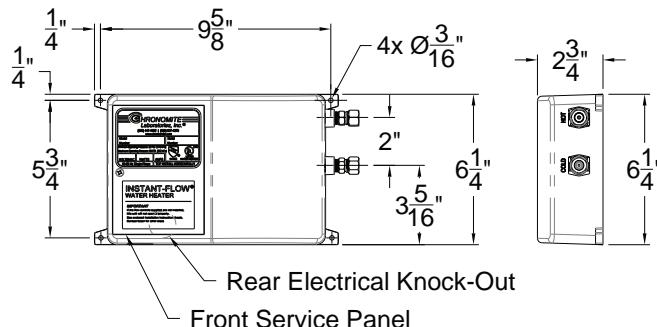

Chronomite Electric Tankless Water Heaters are the space-saving solution for point-of-use, under-the-counter sink and basin applications where instant hot water is needed. Chronomite Electric Tankless Water Heaters are designed to be lightweight, compact and are constructed with a durable metal housing for optimal vandal resistance. No pressure and temperature relief valves are needed (unless required by code), saving time and money on installation.

**FOR OPTIMAL PERFORMANCE, CHRONOMITE ELECTRIC  
TANKLESS WATER HEATERS SHOULD ALWAYS BE INSTALLED  
WITHIN 18 INCHES OF THE POINT OF USE.**

All heaters limited to factory set max temperature

Local plumbing and electrical codes must be followed for this installation of the water heater and accessories.

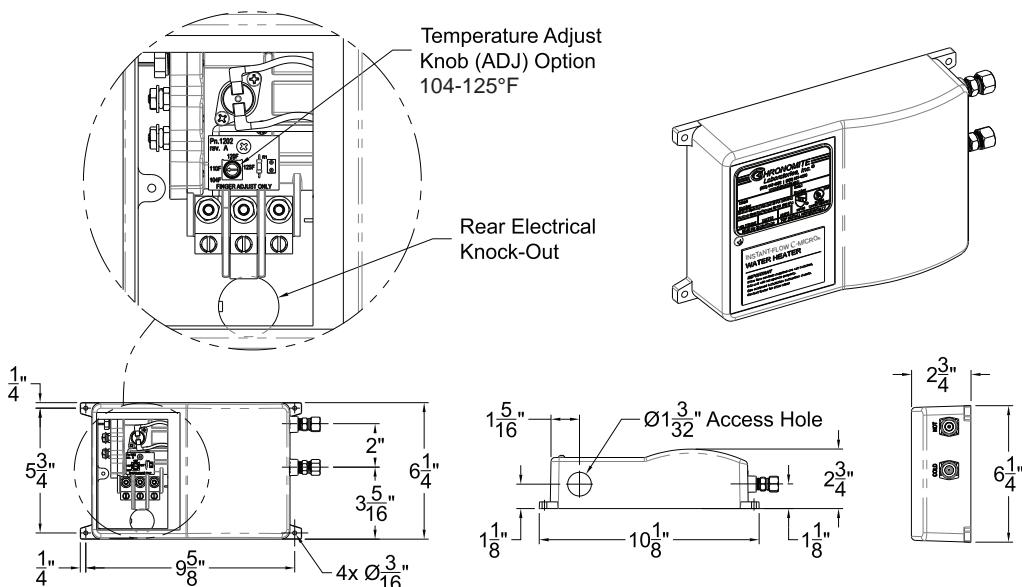

Factory preset temperatures available at 104°F, 110°F, 120°F / Optional - (ADJ) Field Adjustable temperature available 104°F - 125°F.

## IDEAL APPLICATIONS

Manual, metering, or sensor hand washing faucets; dual hand washing sinks; kitchen sinks; bar sinks; utility sinks; hand set showers; water saver showers; dishwashers; and washing machines.

**Chronomite CM Series Instant-Flow® C-Micro Low Activation models are manufactured to provide reliable electric point-of-use hot water. The heater activates at an ultra-low flow rate of 0.20 Gallons (0.75 Liters) per minute.**

SUFFIX OPTION	DESCRIPTION
Standard housing	Aluminum
P	ABS Housing
SS	Satin Finish Stainless housing
SSP	Polished Stainless Housing
NPT08	1/2" Male NPT Connection
ADJ	Field Adjustable Temperature
2095-1	Disconnect Switch

## FEATURES AND BENEFITS:

- Meets CAL GREEN low flow requirements—operates on low flow activation faucets - 0.2 GPM.
- Meets LEED v4 low flow requirements (lower than 0.4 gallons or 1.5 liter per minute).
- Digital microprocessor technology.
- Endless hot water.
- Saves water and energy—activation at 0.2 GPM is 99% energy efficient.
- Saves space – smallest foot print – 6-1/4" (H) x 9-5/8" (W) X 2-3/4" (D).
- 50% more energy efficient than traditional heaters—immediate response to changes in incoming water temperatures, pressures, and flow rate.
- Maintains consistent water temperature—regulates water temperature 120 times per second.
- Eliminates scalding—preset factory temperature with no mixing valves required.
- Rugged, vandal-resistant cast aluminum housing (standard).
- Faucet flow controls are supplied with each unit. 3/8" compression fittings are supplied (standard). Minimum operating/activation flow rate: 0.20 gallons (0.75 liters). Per minute wattage: 1.44 to 9.60 kilowatt range (depending on model).
- Ideal applications include: Commercial, Industrial, and Residential single and double lavatories; Sensor and Manual faucets, Kitchen/Bar sinks
- Ideal for sensor/hands-free faucets with the 104°F (40°C) antiscald, 110°F ADA, and 120°F Health code—factory preset setting; no mixing valve needed.
- Optional temperature adjustment dial—ADJ option. (104-125°F)

# INSTANT-FLOW® C-MICRO PACKS A LARGE PUNCH WITH A SMALL FOOTPRINT.

THE LOWEST (0.20 GPM) ACTIVATION IN THE INDUSTRY. EACH UNIT SAVES VALUABLE SPACE BY REMAINING INCONSPICUOUS IN PLACEMENT UNDER SINKS AND COUNTERTOPS.

MODEL CM SERIES

## THE SPACE-SAVING DESIGN MEASURES AT:

**6 1/4"(H) X 9 5/8"(W) X 2 3/4"(D)**

Underneath a durable, vandal-resistant metal housing, internal nichrome heating coils and digital microprocessor technology provide ultra-quick response times for temperature variations at 120 times per second!

## IDEAL APPLICATIONS

Manual, metering, or sensor hand washing faucets; dual hand washing sinks; kitchen sinks; bar sinks; utility sinks; hand set showers; water saver showers; washing machines; dishwashers; and emergency eyewashes.

The Instant-Flow® Micro instantaneous water heater features a factory preset temperature using digital microprocessor technology. This instant-water heater responds to fluctuations in incoming water temperature, pressure, and flow rate regulating the water temp over 100 times per second. This eliminates the concern of scalding as well as the need for mixing valves. It offers the same compact size, easy installation, and unlimited hot water as heaters without microprocessors, while offering up to 50% more energy efficiency. The Instant-Flow® Micro is great for lavatories, sinks, and numerous other special applications.

### CHRONOMITE INSTANT-FLOW® MICRO ELECTRIC TANKLESS WATER HEATER FEATURES

- Factory Preset Temperature
- 99% Energy Efficient
- Compact Size
- Easy to Install
- Low Installation Cost
- Unlimited Hot Water
- Meets ADA Requirements
- Made in the USA
- Optional Stainless Steel Housing
- Optional Plastic Housing

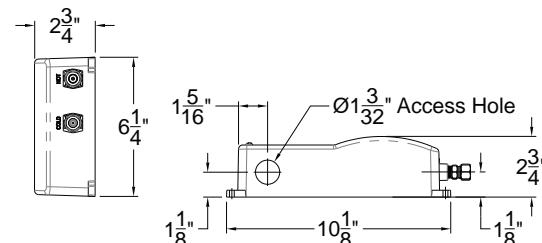

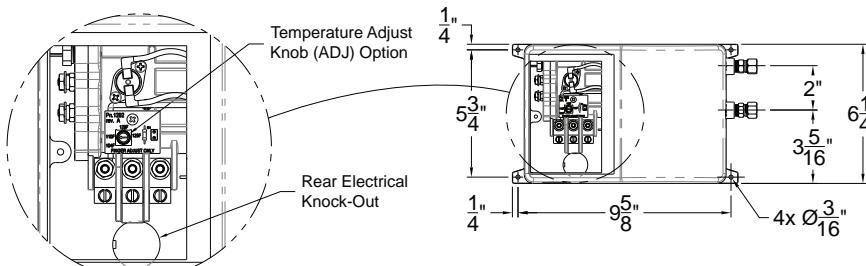

The M-MM Series Instant Flow® Micro-Mix® combines any Chronomite IAPMO certified microprocessor instantaneous water heater and the Chronomite IAPMO certified mixing valve assembly, AP-12. When installed per the instructions, this combination complies with ASSE 1070.

### FEATURES AND BENEFITS:

- Uses a digital microprocessor for temperature control. Ultra-quick response times for temperature variations -120 times per second. Microprocessor use is the most energy efficient means of heating water
- Unlimited hot water
- Ideal for sensor /hands-free faucets
- Saves water and energy - 99% energy efficient
- Meet all CAL GREEN low flow requirements
- Rugged, vandal-resistant cast aluminum housing
- Space saving compact size: 6-1/4" (H) x 9-5/8" x 2-3/4"
- Meets applicable building codes including:  
ADA, UL, IAPMO, UPC, CSA
- Environmentally friendly
- Made in the U.S.A
- Optional temperature adjustment dial—ADJ option. (104-125°F).

US LISTED

## IDEAL APPLICATIONS

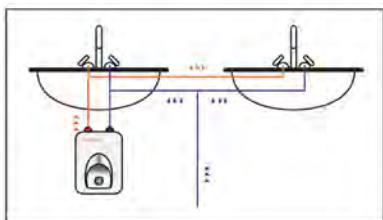

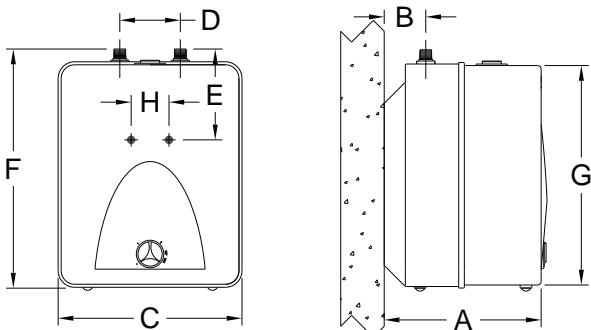

Manual, metering, or sensor handwashing faucets; dual hand washing sinks; kitchen sinks; bar sinks; utility sinks; and hand set showers

The Chronomite CMT Series point-of-use electric Mini Tanks are an everyday, eco-friendly and cost-effective solution to most under the counter, point-of-use applications requiring hot water.

Mini Tanks are designed to supply hot water for all bathrooms, hand washing stations and kitchen sinks in residential, commercial and industrial applications.

Install the Chronomite CMT Series to eliminate the wait for hot water and reduce waste of water at the same time. Chronomite Mini Tank water heaters are lightweight, compact, manufactured for easy installation and designed to be mounted on the wall or vertically on the floor.

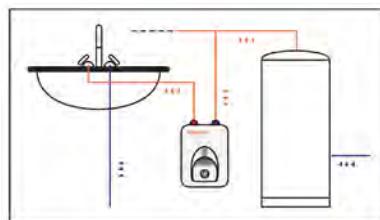

Chronomite CMT Series point-of-use electric Mini Tanks are supplied with cold water or in-line at point-of-use close to a sink.

**INDEPENDENT** - Use a Chronomite Electric Mini Tank Water Heater at the point of use for sinks that do not have hot water. Install the Chronomite Mini Tank close to the point of use, so hot water is delivered quickly. Plumb to one sink or multiple sinks in the same area.

### CHRONOMITE MINI TANK WATER HEATER FEATURES AND BENEFITS

- Pressure/Temperature relief valve included
- Inlet/Outlet clearly marked for easy installation
- Mounting hardware included. (wall or floor)
- Temperature sensor shuts off the unit when it is above the 140°F limit
- CFC-Free high density foam insulation
- Stainless steel sheathed heating element
- Adjustable thermostat allows adjustment from 50-140°F
- 120V plug works with any standard outlet—no additional wiring needed

**IN-LINE** - Connection at the point of use eliminates the long wait for hot water from the central tank type of water heater. Plumb in-line with the central water heater. The Mini Tank is filled with hot water from the central water heater, conserving water and energy.

# LARGE CAPACITY ELECTRIC TANKLESS WATER HEATERS

## 10 - 154 KW (24 - 208 A)

Chronomite's Large Capacity Electric Tankless Water Heaters provide reliable, instantaneous hot water at the point of use or centralized location. The digital microprocessor provides ultra-quick response time, controlling hot water temperatures 120 x per second and eliminating scalding concerns and the need for mixing valves.

# MIGHTY-MITE® MODEL R SERIES

## LARGE CAPACITY ELECTRIC TANKLESS WATER HEATERS

MODEL R SERIES

## IDEAL APPLICATIONS

Manual, metering, or sensor handwashing faucets; dual hand washing sinks; kitchen sinks; bar sinks; utility sinks; water saving showers; standard showers; dishwashers; washing machines; mop sinks; bathtubs; emergency eye washes; and emergency eye/face washes.

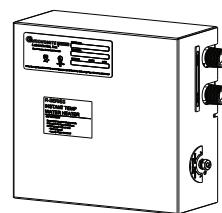

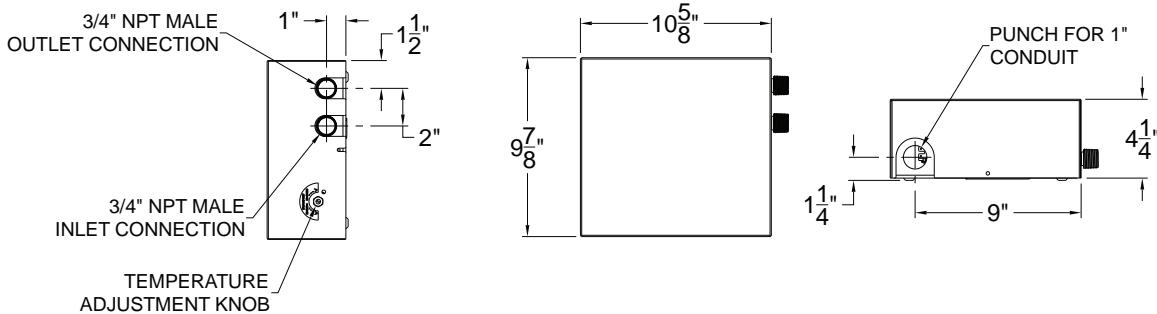

## CHRONOMITE MIGHTY-MITE® WATER HEATER FEATURES

- Ultra-quick response times control hot water temperatures 120 times per second, eliminating the concern of scalding and the need for mixing valves
- Ideal for hybrid, only uses energy when extending the capacity of your existing tank, allowing you to use smaller tanks and conserving energy
- Handles high flow situations with 5 GPM capacity
- Unlimited hot water
- Saves water and energy - 99% energy efficient
- Offered in several activations. Low = 0.35 GPM, Standard = 0.65 GPM and High = 1.8 GPM (safety equipment)
- Rugged steel housing
- Space saving compact size: 9-3/4" (H) x 10-1/2" x 4-1/4"
- Meets ANSI Z358.1 for tepid water
- Meets applicable building codes including ADA, UL, IAPMO and UPC
- Environmentally friendly
- Made in the USA
- Optional electrical disconnect switch available
- 1.8 GPM high activation for Eyewash /facewash applications with tamper-proof (non-adjustable) 84 degree tepid water setting

## HIGH ACTIVATION

- Meets ANSI Z358.1 for tepid water
- Ideal for eye wash, eye/face wash stations
- 84°F factory preset temperature

# TWINS™ & TRIPLETS™ MODEL ER SERIES

## LARGE CAPACITY ELECTRIC TANKLESS WATER HEATERS

Chronomite large capacity electric tankless water heaters are designed in multiple activations.

- Low activation for multiple hand washing sink stations, showers and public lavatories.
- Standard activation for mop sinks, service sinks, utility sinks and showers.
- High activation is designed for emergency eye washes and eye/face wash stations.
- Also ideal for a variety of commercial and industrial applications and tank heating.
- Reliable instantaneous hot water at the point of use or in a centralized location.

## IDEAL APPLICATIONS

Manual, metering, or sensor handwashing faucets; group hand washing sinks; kitchen sinks; bar sinks; utility sinks; water saving showers; standard showers; dishwashers; washing machines; mop sinks; bathtubs; emergency eye washes; and emergency eye/face washes.

### CHRONOMITE TWINS™ & TRIPLETS™ WATER HEATER FEATURES

- Ultra-quick response times control hot water temperatures 120 times per second, eliminating the concern of scalding and the need for mixing valves
- Unlimited hot water
- Saves water and energy - 99% energy efficient
- Works on low flow
- Rugged steel housing (standard)
- Space saving compact size: 15-3/8" x 17-5/8" x 6-1/4"
- Meets applicable building codes including: UL, UPC
- Environmentally friendly
- Made in the U.S.A.
- No Pressure and Temperature Relief Valve needed
- Optional Electric Disconnect Switch available.
- Works on low flow applications 0.35 Gallons per minute
- Ideal for automatic sensor faucets/hands free faucets with 104°F preset temperature; no mixing valve needed
- User adjustable temperature 70–125°F (standard)
- Optional factory preset temperature available, select temperature between 90–160°F
- Multiple applications handled simultaneously with one water heater

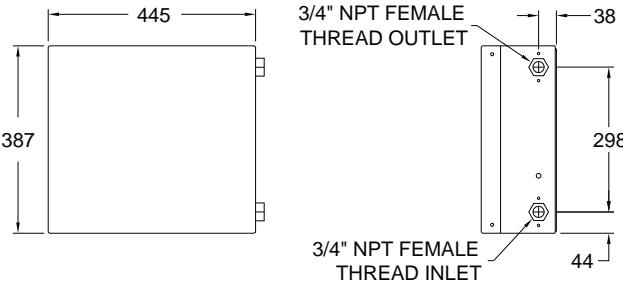

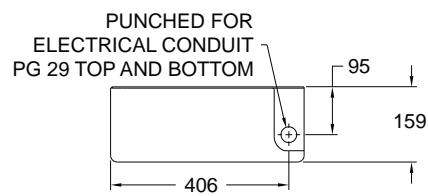

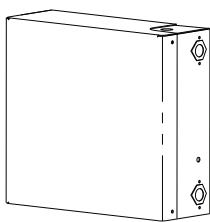

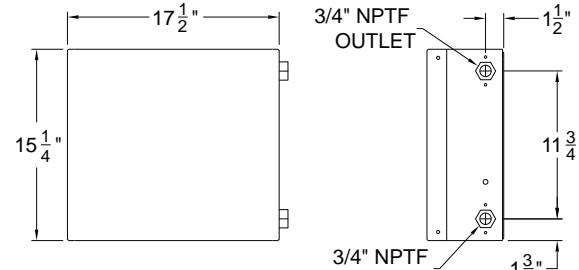

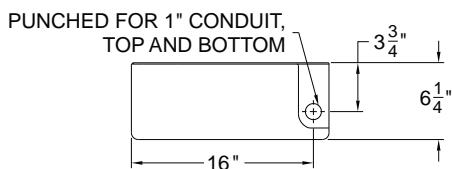

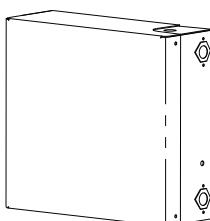

### STANDARD ACTIVATION

- TWINS™ 0.8 gpm and TRIPLETS™ 1.2 gpm
- User adjustable temperature 70–125°F (standard)
- Optional factory preset temperature available, select single temperature between 90–160°F
- Flow friendly minimum pressure drop of 18.5 PSID at 6 gallons per minute/gpm
- Multiple applications handled simultaneously with one heater

### HIGH ACTIVATION

- Meets ANSI Z358.1 for tepid water
- Ideal for eye wash, eye/face wash stations
- 84°F factory preset temperature

Note : Local plumbing and electrical codes must be followed for this installation of the water heater and accessories.

Note: Factory temperature preset between 90°F-160°F - (ADJ) Field Adjustable temperature available 70°F-125°F

# BOXER® MODEL ERB SERIES

## LARGE CAPACITY ELECTRIC TANKLESS WATER HEATERS

Up to 30 GPM of tepid water for Safety showers  
and Eyewash/Shower combinations.

The BOXER® Electric Tankless Water Heater uses digital microprocessor technology which provides ultra-quick response time, controlling hot water temperatures 120 times per second, eliminating the concern of scalding and the need for mixing valves.

- Ideal for safety eye/face wash stations, eye/face wash and drench shower combination units, and emergency drench showers.
- Also ideal for a variety of commercial and industrial applications and tank heating.
- Reliable instantaneous hot water at point of use or in a centralized location.

## IDEAL APPLICATIONS

Manual, metering, or sensor hand washing faucets; group hand washing sinks; kitchen sinks; bar sinks; utility sinks; water saving showers; standard showers; dishwashers; washing machines; mop sinks; bathtubs; emergency eye washes; emergency eye/face washes; emergency showers; emergency eyewashes/showers; and high GPM fixtures.

### LOW ACTIVATION

- 2.6 GPM to 30 GPM flow rate
- Ideal for Safety eye/face wash and emergency drench shower combination units (use option F). 84°F preset temperature (non-adjustable) tepid water to meet ANSI Z358.1
- Standard user adjustable temperature 70° to 125°F (21.1° to 51.7 °C)
- Other factory preset single temperature may be requested between 90° to 160°F (32.2° to 71.1°C)

### STANDARD ACTIVATION:

- 6 GPM to 20 GPM flow rate
- Ideal for commercial or industrial tank heating
- Standard user adjustable temperature 70° to 125°F (21.1° to 51.7 °C)
- Other factory preset single temperature may be requested between 90° to 160°F (32.2° to 71.1°C)

### HIGH ACTIVATION:

- 9 GPM to 30 GPM flow rate
- Ideal for emergency drench showers with safety equipment and commercial or industrial applications
- 84°F preset temperature (non-adjustable)
- Tepid Water to meet ANSI Z358.1

### GENERAL FEATURES

- Ultra-quick response times control hot water temperatures 120 x per second, eliminating the concern of scalding and the need for mixing valves
- Unlimited hot water
- Saves water and energy - 99% energy efficient
- Rugged stainless steel housing (Standard)
- Overall Size: 26.75 W x 21 H x 7.5 D inches (67.9 x 53.3 x 19.1 cm)
- Meets applicable building codes including UL, UPC, CSA
- Environmentally friendly
- Made in the U.S.A.

### COMPATIBLE PRODUCT ENHANCEMENTS

#### HEAT TRACED PLASTIC HEAD PEDESTAL SHOWER WITH EYE/FACE WASH, LESS BOWL

- Heat trace combination unit ideal for workplaces where exposure to chemicals may require emergency equipment.

# CHRONOMITE® BOXER® DELIVERS THE KNOCKOUT PUNCH TO ANSI Z358.1,

PROVIDING TEPID WATER TO EMERGENCY DRENCH  
EQUIPMENT WHEN YOU DON'T HAVE TIME TO WASTE.

CHRONOMITE'S BOXER PAIRS PERFECTLY WITH ACORN SAFETY®  
EMERGENCY DRENCH EQUIPMENT TO PROTECT WORKERS.

MODEL ERB SERIES

## ACORN SAFETY'S PRODUCT LINE INCLUDES:

- EYE WASHES
- EYE/FACE WASHES
- DRENCH SHOWERS
- COMBINATION UNITS

A. CHRONOMITE® - ERB SERIES BOXER®  
TANKLESS WATER HEATER WITH 2.6 GPM  
ACTIVATION FLOW RATE

B. ACORN SAFETY® - S1360-HT  
HEAT TRACED PLASTIC HEAD PEDESTAL  
SHOWER WITH EYE/FACE WASH, LESS BOWL

C. JAY R. SMITH MFG. CO.® - 9675  
'TROUGH/KETTLE' STAINLESS STEEL  
TRENCH DRAIN

D. JAY R. SMITH MFG. CO.® - 9660  
WIDE NEUTRAL STAINLESS STEEL MODULAR  
TRENCH DRAIN

# APPLICATIONS

## MIXED USE DEVELOPMENT

The Chronomite® Electric Tankless Water Heater can be installed at each floor level, servicing multiple fixtures. It only uses energy when water is flowing. This saves energy and time while also conserving water.

1 Washer

2 Shower

3 Sink

4 Tankless Water Heater

APPLICATION	GPM
Water Saver Faucet/Sink	0.35
Standard Faucet/Sink	0.50
Bar Faucet/Sink	1.00
Kitchen Faucet/Sink	1.00-1.50
Utility Faucet/Sink	1.50
Mop Faucet/Sink	1.5-3.0
Water Saver Shower	1.50
Hand Set Shower	1.50
Standard Shower	2.00
Dishwasher	1.0-2.0
Washing Machine	1.0-1.5
Bath Tub	2.0-4.0
Emergency Eyewash	.5-3.0
Emergency Eye/Face Wash	3.00-5.00
Emergency Drench Shower	20.00
Emergency Efd Combo	23.00

# TECHNICAL: HOW TO SELECT YOUR WATER HEATER & AVERAGE GROUND TEMPERATURE

## SELECTING AN ELECTRIC TANKLESS WATER HEATER

There are some basic questions you should ask when deciding on a Chronomite Electric Tankless Water Heater:

1. How cold is your inlet water temperature in the winter?
2. What is the flow rate and gallons per minute you need to supply your hot water demand?
3. What is your desired outlet temperature?
  - 84°F - Emergency drench shower
  - 104°F - Hand washing and bathing
  - 110°F - ADA
  - 120°F - Meets health codes
  - Other temperatures available.

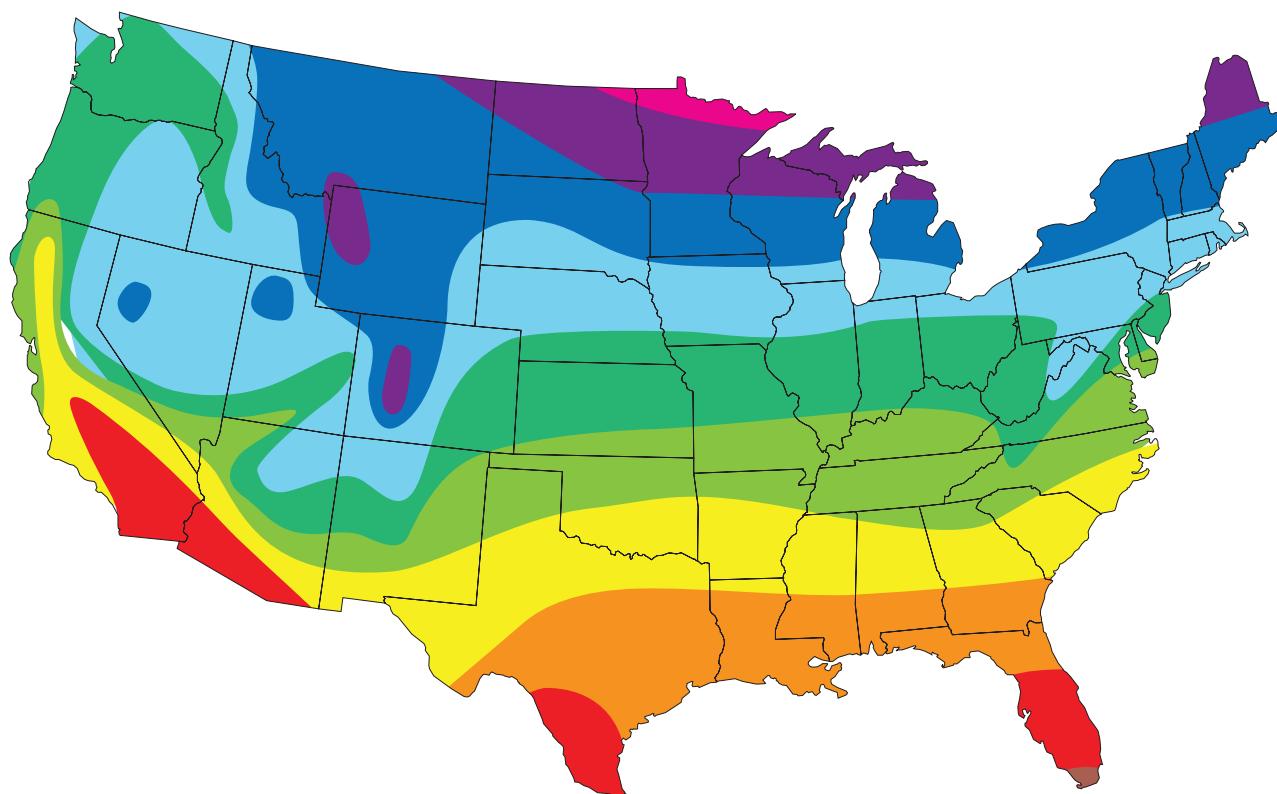

If you are unsure of the answers to these questions, please contact Chronomite, Inc. You can find us or a local representative at [Chronomite.com](http://Chronomite.com) or call 800-447-4962.

## AVERAGE GROUND TEMPERATURE

35 37 42 47 52 57 62 67 72 77

Ground water temperatures reflect the average external water temperature coming into your water heater.

Internal water pipes hold already heated water, which may be closer to your ambient or room temperature.

# OMNI® LOW FLOW FAUCET ADAPTER

A Division of Chronomite Laboratories  
[www.omniflowcontrols.com](http://www.omniflowcontrols.com)

Omni®'s unique laminar flow offers a crystal clear, transparent, solid stream of water. When Omni created laminar flow, it created a faucet flow control that offers no splash while improving wetting ability without aeration. Omni laminar faucet flow controls don't add air to the water. Therefore, no airborne bacteria is introduced in the water. Omni laminar faucet flow controls are the only devices approved for use in hospitals and health care facilities.

## INNOVATIVE SPIRIT AND ENGINEERING FOUNDATION

"What sets us apart from competitors is our engineering and spirit. We have a 'can-do' spirit. If you ask us to do something, we will do it or figure out how to do it. That's the part our customers like, that's the part we like."

- Don Morris, President and CEO
