Specifications

Description

This product is precision engineered to provide satisfactory performance provided it is installed and operated in accordance with our recommendations contained in this manual. In order to fully enjoy the comfort, safety and the reliability of your pressure balancing valve, be certain to familiarize yourself with the contents of this manual.

Specification and Dimensions

Minimum operating pressure 20 psi

Maximum operating pressure 145 psi

Maximum test pressure 500 psi

Hot and cold water inlets $\frac{1}{2}$ " IPS

Shower outlet $\frac{1}{2}$ " IPS

Flow capacity 5 USGPM @ 50 psi

Trim

TRIM PLATE & PLATE COVER

- Fit sleeve onto valve until it bottoms out.
- Place foam strip around the inner edge of the shower plate.
- Press the shower plate against the wall.
- Screw the 2 plate screws through the plate holes and onto the valve's screw holes. Tighten both screws firmly.
- Fit the plate cover over the sleeve and press it all the way into the trim plate.

HANDLE

- Insert the handle onto the valve stem. Turn the handle clockwise until it reaches the end. Reposition the handle to the desired position. The handle should be facing up at 12 o'clock position.
- Using the provided Allen key, insert the set screw onto the handle and press against the valve's stem. Tighten firmly.
- Adjust the height of the handle if it is scraping against the shower plate.
- Insert the plug into the handle set screw hole.

FINISH CARE INFORMATION

WARNING: Do not clean your SANTEC product with ammonia (window cleaner), bleach, soaps, acids, abrasives, harsh polishes, harsh cleaners, a coarse surfaced cloth, coarse sponge, or any type of scouring pad. Doing so may ruin your faucet finish and/or void the warranty.

Thank you for making SANTEC a part of your lifestyle and luxury spa experience. Our products have been created as works of enduring quality and sophisticated design. Luxurious finishes need proper care and attention, so in order to understand how to properly clean your distinctive luxury finish, please refer to the finish care information below:

Your SANTEC product can be identified in one of two categories: clear coated finishes or non-clear coated finishes. Clear coated finishes are more scratch-sensitive and are more reactant to harsh cleaning chemicals than non-clear coated finishes. Once you have identified the specific luxury finish of your SANTEC product, please follow the important corresponding care instructions.

Living finishes are unique, are intended to change over time and are excluded from the finish warranty. Any product outdoors or in a marine environment are excluded from the finish warranty.

CLEAR COATED FINISHES

Clear Coated Finishes are as Follows:

We recommend that all faucets, drains, etc., be gently wiped dry with a soft cloth after use to avoid water spotting and water deposit build-up. A mild liquid hand soap may be used occasionally if desired. Use of a non-abrasive carnauba wax will add protection to the finish and should be used if the faucets will not be dried after use. Sante Orobrass kitchen products are clear coated. For clear coated finishes, it is recommended to clean your product weekly with a soft moist cloth.

NON-CLEAR COATED FINISHES

We recommend that all faucets, drains, etc., be gently wiped dry with a soft cloth after use to avoid water spotting and water deposit build-up. A mild liquid hand soap may be used occasionally if desired. Use of a non-abrasive carnauba wax is occasionally required and will add protection to the finish if the faucets will not be dried after use.

TO OBTAIN WARRANTY SERVICE

Please read 'WHAT IS COVERED BY OUR WARRANTY' and 'EXCLUSIONS AND LIMITATIONS OF WARRANTY' sections to understand what is and what is not covered. Please have ready the proof of purchase (original sales receipt), description of the problem, and carefully package the product or defective part with postage prepaid.
