

TF1 Total Filter Thermal Cover 62349

- A strong and durable enclosure
- Reduced heat loss
- Greater heating system efficiency
- Protection from internal components and hot surfaces

Manufactured from Expanded Polypropylene (EPP) the Fernox TF1 Total Filter Thermal Cover is used to insulate inline system filters installed on central heating systems to minimise system heat loss and maximise energy efficiency

Application

The customised EPP thermal covers supplied by Fernox are designed to last the life of the TF1 Total Filter. They will insulate and protect the system filter year-after-year without losing their integrity or performance.

Designed to insulate the TF1 Omega Filter to retain heat levels, reduce energy consumption and energy costs

Package, Handling & Safety

Individually packaged. No special storage requirements.

Specification

High quality, flame retardant protective cover
Improves energy efficiency
Promotes safer handling

Single Item

Height mm	157
Width mm	365
Depth mm	157
Weight kg	0.220
Barcode EAN	5014551623491

Outer Carton

Transit Type	CP1 1200 x 1000
OCU Barcode	N/A

Last modification	12-02-2021 (d/m/y)
