Uponor Vario S
1" Stainless-Steel Manifold

Designed to replace the A270 Uponor 1" Stainless-Steel Manifold offering, the Uponor Vario S 1" Manifolds are manufactured from durable, corrosion-resistant stainless steel for a lifetime of dependable service in residential and commercial radiant heating and cooling applications. Preassembled right out of the box, the manifolds promote **fast installs, material cost savings**, and **lasting performance**.

Note: Pricing and performance is consistent across both manifold offerings, and appearance differences are minor. This transition will take place throughout the fall of 2026. During this time, customers may receive either the A270 or the A370 manifolds. For questions, contact Customer Service.

+ **Corrosion-resistant** stainless-steel design for long service life
+ Accommodates flows up to **16 gpm** based on 3 psi manifold pressure drop
+ Integrated flow meters for **easy system balancing**
+ Balancing and isolation valves for **complete loop isolation**
+ **Full-port ball valves** with **temperature gauges** for unrestricted flow, instant temperature diagnostics, and quick system isolation
+ 1" NPT thread connections for **fast transitions**
+ Compatible with Uponor Two-Wire (A3030524) and Four-Wire (A3023522) Actuators
+ Available with 2 through 8, 10, or 12 loops
+ Approved for residential or commercial applications
