

FLOOR & CEILING PLATE

926 SERIES

SnapOne™

SPECIFICATION

Sioux Chief 926 series SnapOne™ Floor & Ceiling Plates shall be installed where necessary to provide a finished look for CTS (copper/PEX/CPVC) supply lines where wall/ceiling/floor penetrations are present. Plates shall be 100% corrosion proof and split for easy retrofit.

MATERIALS

Polypropylene, chrome-plated polypropylene

INSTALLATION NOTES

SnapOne™ plastic floor & ceiling plates are designed to allow one side to be snapped open for easy installation around a pipe in applications where the pipe has already been installed.
