bottle fillers # drinking fountains

MODEL 1920 SHOWN ON MODELS 1011, BP32 & 6700.4L

MODEL 1920

Versatile retrofit or new install options for Haws or competitive fountains. Wall-mounted, satin finished bottle filler can be mounted alone or above a drinking fountain. Constructed of 14-gauge, Type 304 satin finish stainless steel with laminar flow and push button operated stainless steel valve.

MODEL 3377BF

Bottle filler attachment with pedestal extension for the 3377 outdoor, barrier-free pedestal drinking fountain.

KEY FEATURES OF MODEL 1920 & Model 3377BF:

- Manual, patented push-button operation
- 14-gauge, Type 304 satin finish stainless steel
- 100% lead-free waterways
- 1 GPM (3.78 LPM) laminar flow
- Drip tray available (Model 6469)

MODEL 3377BF SHOWN ON MODEL 3377

MODEL 5551

The bottle filler faucet can be mounted to a sink or countertop.

KEY FEATURES:

- Self-closing lever handle valve to control the flow of the cold stream of water
- Constructed from lead-free polished chrome-plated brass
- Resistant to corrosive materials
- Easy maintenance and cleaning

HYDRATION BY HAWS™

The wall-mounted bottle filler units offer a hygienic, touch-free solution ideal for applications with high traffic. Both wall-mounted units include silver ion antimicrobial protection, sensor activation, and a unique Electronic Lifecycle Control (ELCC) filter feature that provides accurate usage and filter monitoring, ensuring great-tasting water for enhanced user experience.

MODEL 2000S RECESSED

The perfect solution for permanent installations, Model 2000S installs directly into your wall and offers a plumbed drain. In addition, Model 2000S meets the requirements of the Americans with Disabilities Act when mounted at the correct height.

MODEL 2000SMS SURFACE MOUNT

The perfect solution for permanent installations, Model 2000SMS installs directly onto your wall. Unit has an integrated drain pan and does not require drain plumbing. In addition, Model 2000SMS meets the requirements of the Americans with Disabilities Act when mounted at the correct height. Plumbed drain option.

KEY FEATURES:

- Hygienic electric sensor activation
- Large 11" dispensing area
- 16-gauge stainless steel back panel for durability
- Advanced Filtration System with superior NSF/ANSI 42, 53, & 372 certifications

CERTIFICATION

Bottle filler units are certified according to NSF/ANSI Standards 42 & 53 for the reduction of chlorine (taste and odor), lead, and 99.99% of cysts.

Substances reduced may not be in all user's water.
