Electric
Marathon Point-of-Use
Water Heaters

Marathon® Point-of-Use non-metallic electric water heaters are durable, lightweight, easy to install and offer a longer warranty

Non-metallic Tank Features

- Seamless, blow-molded, polybutene tank – impervious to rust and corrosion
- Multiple layers of filament wound fiberglass give the tank unmatched strength
- Polyurethane insulation helps reduce energy consumption and standby heat loss
- Recessed drain valve is out of the way of brooms and scrubbers
- High temperature polysulfone dip tube
- Tough molded polyethylene outer shell resists dents, scratches, and salt air
- All plastic tank eliminates the need for an anode rod

Easy Installation & Service

- Marathon point-of-use's lightweight tank is easy to maneuver and position
- Bowl shaped tank bottom allows complete sediment draining
- Water tight grommets keep out overhead moisture and condensation
- 3/4-Inch inlet and outlet connections
- Built for applications where larger water heaters won't fit, such as apartments, recreational property, and restrooms in offices and commercial buildings

Element Wattage and Voltage

- 15 and 20-Gallon with a 2,000 watt element and 120-voltage; 20-gallon with a 3,000 watt element and 240-voltage

Plus...

- Thermally fused element to protect against dry-firing; low watt, density for long life
- Full-flow, brass drain valve
- Temperature and pressure relief valve
- Low Lead compliant
- Standard replacement parts

Warranty

- Residential Application: Lifetime limited warranty on tank and 6-years on parts*
- Commercial Application: 5-year limited tank warranty and 1-year on parts†

*Warranty is provided to original customer in a residential application after online product registration is complete. Registration must be completed within 90 days of installation. See Warranty Certificate for complete information
†See Warranty Certificate for complete information

Units meet or exceed ANSI requirements and have been tested according to D.O.E. procedures. Units meet or exceed the energy efficiency requirements of NAECA, ASHRAE standard 90, ICC Code and all state energy efficiency performance criteria.
