

## Cisterna CCK110-15WH Fireclay White Kitchen Sink

Cisterna fireclay sinks are created with old world craftsmanship and thoroughly modern materials and technology.

### FEATURES

- CeramicPlus: The CeramicPlus coating causes liquids to bead upon making contact with the sink's surface, repelling dirt, lime-scale and other residues, which are easily wiped off.
- Highly Durable: Fireclay is an extremely tough, scratch-resistant surface that is impervious to acids and bleaches.
- Sound Absorbing: Fireclay is a naturally sound-absorbing material that reduces the noise caused by a garbage disposal or running water.
- Undermount Installation: Fitted underneath the counter, it gives an edgeless finish that is easy to clean.
