Meeting Summary:

The meeting began with a power point presentation given by staff and Cheney Bostic, the project consultant. The presentation outlined the purpose of the planning process and expected outcomes, summarized the survey results from Meeting 1 and 2 focusing on the future vision, form and function of the Union neighborhood, and provided instructions for the evening's design workshop. The workshop was broken into five topic areas in order to focus the discussion: Building Styles, Priorities for Development, Building Design, Street Design, and Public Plaza Design Elements.

After a question and answer period, the meeting participants were asked to fill out a Design Workshop Passport by selecting their preferences for design elements for each topic area. City staff and the consultant were present to answer questions and hear comments from the attendees.

General comments heard from those in attendance included:

- Traffic is a concern.
- Purpose of the plan.

Next Steps:

A summary of the survey responses (from Meeting 3 as well as for those received online) for the building and site design exercise will be posted on www.Lakewood.org/UnionVision no later than June 24, 2019. A total of 74 responses were received. The next meeting is scheduled for June 27. The focus of that meeting will be review of the draft recommendations to be contained in the plan.
