

Board Report for **September 25, 2018**

Start/Current Enrollment <i>Δ from Aug 28.</i>	New Initiatives or Developments	Current Needs or Concerns	Excellent or Praise <b>Phil 4:8</b>
45, <b>49</b>	<p>Praise GOD for a wonderful start to our preschool year. As always, we were BLESSED with the cutest kids!</p> <p>This year our staff is very excited to implement age appropriate STEM projects into their weekly lesson plans. It's refreshing and FUN!</p>	<p>Although some of our classes are filled to capacity, there are spaces available in our 3's and 4's classes. Pray for enrollment to increase.</p> <p>Our state license is due for renewal before the end of October.</p>	<p>It is such a JOY to be able to share JESUS with our little ones!</p> <p>We are so THANKFUL for updates on our buildings inside and out!</p> <p>Praise GOD for amazing</p>
52, <b>51</b>	<p>God has blessed us with a great start to the year! We are able to share music and computer classes with MVE for our 4 year olds.</p> <p>On staffing, we have hired three new aides to replace our college contingent, and two have started already, the third starts Oct 8. The staff is thrilled!</p>	<p>We can always pray for a few more students. Many of our classes are close to capacity, but we do have some slots available.</p>	<p>God has blessed us with very strong and caring staff this year, from the long term to the newest of hires. We are blessed with their faithful service to our Father and to our school. We are grateful they've worked together through this time of change.</p>
61, <b>60</b>	<p>Our teachers are starting to get into a rhythm, and the school is humming along! I am so blessed to have such a staff that is more focused on relationship with the Father than religiosity. The kids are in for a real treat! In addition, the campus looks great with staff, volunteers and students alike joining in the weeding,</p>	<p>We have had high turnover in the PTF and are needing to retool and essentially start over. Please pray for the right parents to help lead the school into the future, and help determine what is important and what activities</p>	<p>I am touched by the sincerity and authenticity of the students. The ones that have grace and a door under less than optimal conditions (i.e. sent to the principal's office to see me) have been shown a remarkably attitude-free! We trust the Spirit of the Lord will</p>

	and all the beautification the Ben has been performing.	to let slide.	to permeate everything c campus.
126, 126	<p>We're getting our PTF up and running. Our annual fun run is starting to come together.</p> <p>We have our first social events coming up (Skate Night this Thursday, Fun Run, and a movie night on the horizon)</p> <p>The Maker Space is under way. I have seen and heard a lot of positive comments about the maker space.</p>	<p>I still have a great concern for our lack of substitute teachers.</p> <p>We have some plumbing and other maintenance issues which I fear might be bigger than they seem. I'd appreciate prayers that either these won't be a big problem or that the cost won't be too large.</p>	<p>This has been the smoothest opening of a school year in years I've started. Praise the positive energy of the students. The students are falling in love with the routines of school very quickly.</p> <p>I'm still doing tours for international families. As the year starts, families are not happy with local schools and are looking for alternatives.</p>
47, 46	This year our focus in the middle school is trying to build positive relationships between the staff and students to make sure that each student has a voice and an opportunity to voice concerns in a positive environment.	<p>Just like KVE - I have a great concern over the lack of substitute teachers available.</p> <p>I'd like to be able to have something after school in our Maker Space for students who aren't able to have it as an elective.</p>	We have had a very good year. We launched the year with a Mustang In-treat. The students seem to be connecting very well and positive relationships are developing with the staff and students.

<p style="text-align: center;"><b>88, 88</b></p>	<p>The Lord has been very gracious to meet our staffing needs, despite some major hurdles that came late in the summer. Mr. Melvin stepped into the Math department as a long term sub for the month of September. He has done an excellent job, and I am in conversations with him now to secure a teaching contract for the remainder of the year. Also the coaching staff has stepped up to fill the gaps since our AD left suddenly. Thankful for their hard work!</p> <p>A note of thanks to Michael and Matthew Ahlen for their tireless work this summer to get our campus functional!</p> <p>Working with Mr. Kelly to fully implement the 5D model. Working with staff to set up our observations and conferences to help them implement their training from the August in service.</p>	<p>I submitted our change of address to the SEVIS system (government agency that regulates and approves our ability to host international students at RCHS). I am still waiting to hear back from them on our approved status for our “new” location. Prayers for this would be appreciated.</p> <p>Waiting for Fire and Health inspections to be completed. Praying for a favorable review of our campus from both entities.</p>	<p>Despite the whirlwind of campuses, this has been the best year launches I seen since I began with I The students are enjoyin themselves. The staff lov spaces that they can owr at home and settled. Wo Ryan Saenz at Black Dia Camps (and his crew) ha joy. The Lord is good, all</p>

**CS Total Enrollment 09.24.18**  
**ents +4 Since 8.28.18**

	<p>Labs / Maker Spaces are functional, but we're still working to get everything completely installed. There are also many beginning of year tasks yet to be completed across the district. Bruce &amp; I will be going through the complete job list tomorrow morning.</p>	<p>Still concerned about aging hardware &amp; a plan for their replacement. Bruce &amp; I have started talking about developing a 3-5 year Tech Plan that we can follow.</p>	<p>New staff computers for Valley campus just arrived to a very generous donation.</p> <p>Thankful again for Alex M... the very professional assistance he's been able to supplement efforts with!</p>
	<p>Pre-Design Progress with Bassetti Architects--Geoengineers</p> <p>Professional Development Calendar</p> <p>Retooling the HS Events Calendar  August—Notify Principal  September—Notify Staff and Board  October—Input Sessions from Students, Staff, and Parents  November—Final Version for Review  December 3<sup>rd</sup> and 4<sup>th</sup>—Town Hall Meetings for High School and Middle School Families  January—Finalize Model  February-June—Staffing Decisions, Business and Company Outreach  September—New Model Implemented</p>	<p>Athletic Director</p> <p>Retooling High School-Interest and Gift Pathways</p> <p>Reaping the harvest from seeds planted to increase enrollment</p>	<p>Instructional Model</p> <p>Content Standards</p> <p>Maker Space</p> <p>Very Smooth Start Report All Campuses</p>
