

WHY RCHS?

Educating and Developing the Whole Person for the Glory of God

March 2016

Dear Parents,

As we continue to prepare for next year, I wanted to make myself available to you for any questions you might have in regards to the High School and the programs that we have to offer. Below is a brief summary of the opportunities your student will have at our campus. If you would like to speak with me directly, please feel free to call, or to set up an appointment to discuss any of these in more depth.

Academics

When I do tours, people often ask about how we can prepare their student for college and career while being competitive in our academic standards. Below is a summary of the classes and advantages we offer:

- **AP and Concurrent Credit classes** | Did you know that your student can earn **up to 22 college credits** by the time they graduate from RCHS? This is accomplished through the Social Studies, Mathematics and English departments.

- **Dual Enrollment (Grand Canyon University Consortium)** | Through [our partnership with Grand Canyon University](#), your student can earn an **additional 32 college credits**, while satisfying High School class requirements.

- **College Ready / Individual Academic Plans** | Our high school program is designed to prepare your student to be college ready at the time of their graduation. We create an Academic Plan for each student to ensure they are on target to complete this goal. In addition, we meet with each family during the Junior year to provide

“We proclaim Him,
admonishing every man
and teaching every man
with all wisdom, so that
we may present every
man complete in
Christ.”

Col 1:28

resources of how to prepare for the SAT, how to apply for scholarships, etc.

- **Success of our Graduates** | [Click here for a view of our school profile](#), including scholarship monies earned, and schools that our Graduates have been accepted to, including UW, Naval Academy, Syracuse U, Coast Guard Academy, etc.

- **Expanded Electives** | As your student advances in their High School career, we have a number of resources that can offer specialized classes to help prepare them for a field of study specific to their interests. Many of these are offered at no additional cost, and can be done either on or off campus.

Spiritual Growth

Undergirding all that we do, is our commitment to continually put before your student a distinctly Biblical world view in their academic pursuits. They will find the Scriptures enfolded into all of their classrooms to build them up in the Lord Jesus Christ, as we proclaim Him (Col 1:28). Below is a summary of the Bible curriculum that your child will be instructed in:

- **Freshman year** | Fundamentals of the Faith; Who is Jesus Christ? What is the Bible? What is salvation? And how do these truths connect to every day life?

- **Sophomore year** | In our Old Testament and New Testament Survey class, we answer the following questions: “What is the main story of the 66 books of the Bible? How does the Lord reveal His plan of salvation from Genesis through Revelation?”

- **Junior year** | Your student will learn Systematic Theology with an emphasis on how to give a reasoned defense for what the Bible teaches. This is a great mixture of training in sharing the gospel, while offering Scriptural reasons for why we believe in God’s revealed word.

- **Senior year** | Dave Ramsey’s Financial Peace (High School edition). How to handle your finances, create a budget and to stay out of debt. Training in the needed skill of handling money well.

And much more...

With limited space, I wanted to send you a broad overview of the work the Lord is accomplishing at RCHS. I would love the opportunity to give you a tour of the high school and to learn the specific needs of your family. If you would like to meet, do not hesitate to call. I look forward to the opportunity for us to get together.

Serving with you,

Justin E. Evans
