- In-person Worship - see below for what to expect when arriving
- On-line service (Virtual)

COVID SAFE GUIDELINES

Who should attend In-Person Worship Services?

- People who are well (not running fever or having flu like symptoms).
- People who feel it is the right time to attend.
- People who are willing and able to follow all of the safe sanctuary guidelines and hold others accountable to them.

What to expect for attending in-person in the Sanctuary?

- When you arrive on to the campus it is required that you will wear a mask that covers your nose and mouth at all times and that you will remain six (6) feet from those not in your family unit. (Note: Face shields are not a safe option at this time unless worn with a face mask.)
- Please arrive no earlier than 15 minutes prior to worship beginning to limit the amount of time spent in an indoor environment.

- Enter the church through the Narthex entryway wearing a mask. Maintain 6 feet of space between you and other members.
- Please use the hand sanitizer provided in the Narthex before going into the sanctuary.
- Take a seat at the marked locations. Pews will be marked with GREEN tape allowing members to sit there. Areas marked in RED are off limits to seating.
- There will be no in-church congregational singing as it is shown that the virus spread is greater and farther with singing.

Our church re-opening team will meet regularly to review our guidelines and our ongoing ability to meet in-person.

We want worship to be a positive, safe and joyful experience for all regardless of whether you worship in person or virtually. Where you worship is not a measure of your faith. So please know that whichever option you feel is the safest for you and your family you are welcome. Wherever we are gathering together, in either of our venues, we can find the joy of our church community.
