

Online Directory Policy

Approved by Leadership Team on January 21, 2016

Purpose

This policy establishes types of member (by classification) and which members will be listed in, and given access to Pathway Church's online photo and phone directory. Pathway Church is implementing this system in early 2016 as a proactive tool for the congregation.

Member Classification Definition

Any member classification will be identified by the Pathway Church Leadership Team either through established process or group consensus and may be updated at any time.

Member: An individual whose papers are formally held by Pathway and considered a full member in good standing

Child of Member: non-communicant member's dependent

Inactive: An individual whose papers are formally held by Pathway and considered to no longer be an active member for whatever reason (moved away, attending elsewhere, etc.)

Attender: Non-Member who regularly attends worship who is either (A) known to be close to formally transferring membership papers to Pathway, or (B) regularly attending worship and actively involved in congregational activities. Attender status will be determined by Leadership Team.

Guest: New attendee not yet established as an attender

Email List: An individual that has requested receiving Pathway emails that does not fall under a different descriptor

Individual and Family Directory Listings

Individuals and families that are members or considered attenders will be listed in the directory. Pathway will honor specific requests of anyone not wishing to be published. At the discretion of Leadership Team, others may be listed on exception basis.

Access to Directory Information

Pathway members will be given access to the directory. At the discretion of Leadership Team, others may be granted access on an exception basis.
