

# Teaching Kids About

## COMMUNION

How to prepare your children for communion this Easter

**We want kids to know the importance of communion.**

Communion is an essential part of our faith. It is an incredible step in someone's walk with God, and we want your children to understand its significance so that they may participate with the church if they are ready and feel comfortable. We encourage you to read the story outlining The Last Supper found in Luke 22:7-19. After reading the Scripture, follow the Pastors' cue to take communion together as a family.

### Three Key Points

1 ✓

**Communion is Jesus's idea.**

Luke 22:19  
John 6:56

2 ✓

**Communion is a way to remember what Jesus did on the cross.**

Isaiah 53:5  
Romans 5:8

3 ✓

**Communion is for anyone who has asked Jesus into their hearts.**

John 3:16  
1 John 1:9

### FIRST,

we want to teach kids that we take Communion to honor the sacrifice that Jesus made on the cross. His death meant that we could receive forgiveness for our sins. We believe this understanding is necessary to receive the bread and the juice during Communion.

### NEXT,

we want kids to look inside their own heart before partaking in communion so that they are certain they don't hold unforgiveness towards anyone, and that includes themselves. We encourage them to confess their sin and ask God to give them a clean heart before eating the bread and drinking the juice.

### LASTLY,

we want kids to understand that Communion is an intimate part of both worship and fellowship with Christ and His body of believers. Communion is an opportunity to stay closely connected with Christ and share in the significance of His sacrifice on the Cross.
