

## COVID-19 GUIDELINES

*These guidelines are for your safety and the safety of others.*

If you are showing any COVID-19 related symptoms\* or have knowledge of recent exposure, please do not attend.

Masks are required. Please put on your mask prior to entering the building. If you do not have a mask one will be provided. We ask that you keep your mask on (over your nose and mouth) at all times when in the building.

Please keep a minimum of 6 ft between you and those not in your family at all times. This includes when visiting outside. We encourage you to continue to wear your mask at all times.

Hand sanitizer is readily available throughout the building.

Seating in all rooms will be spaced out to accommodate for distance between each person/family.

Please arrive no earlier than 15 minutes before the event.

Enter through the main entrance off of the parking lot. The doors will be propped open or a greeter will be there to open the door for you.

Bathrooms will be available throughout the building.

The Cafe will be closed and the lobby area will be restricted. Please make your way to and from your event.

Please refrain from eating or drinking in the building (with the exception of water).

If you come down with symptoms **within 14 days** following one of our services or events that you have attended, please email [wellness\\_team@southparkchurch.org](mailto:wellness_team@southparkchurch.org) with the following details:

- Date last attended SPC
- Date you began showing symptoms
- Date of coronavirus test
- Expected date of results/when you received your result

It is South Park Church's responsibility to inform those in attendance at an event if someone else who was also in attendance has tested positive for Covid-19 or is awaiting results of a coronavirus test. **Your identity will remain confidential.** South Park Church does not share your name or information with any public or private organizations without your advance permission.

Thank you for joining us and for your cooperation.

\* Symptoms include, but are not limited to: fever, chills, cough, shortness of breath or difficulty breathing, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting or diarrhea.
