

# WELCOME

In his book "Waking from the American Dream," Donald McCullough tells the story of Winston Churchill was able to enlist the support of there coal workers in Britain. During World War II, England needed to increase its production of coal so Churchill called together labor leaders to cast a vision. At the end of his presentation he asked them to picture in their minds a parade which he knew would be held in Picadilly Circus after the war.

First, he said, would come the sailors who had kept the vital sea lanes open. Then would come the soldiers who had come home from Dunkirk and then gone on to defeat Rommel in Africa. Then would come the pilots who had driven the Luftwaffe from the sky.

Last of all, he said, would come a long line of sweat-stained, soot-streaked men in miner's caps. Someone would cry from the crowd, 'And where were you during the critical days of our struggle?' And from ten thousand throats would come the answer, 'We were deep in the earth with our faces to the coal.'"

Not all the jobs in a church are prominent and glamorous. But it is often the people with their "faces to the coal" who help the church accomplish its mission.

Welcome to SAF where today we continue our study about God's calling to each one of us. I pray you are blessed from the music, prayer, and Bible study. Welcome to worship.

# BE THE SWITCH

Living Your Calling While Living Your Life

Everyday, people live lives that they feel do not have a purpose. What happens when Christians struggle with the question, "What is my purpose?" Or, "How can God use me? I'm a nobody!"

As believers in Christ, we all have a calling. And while that calling may not be to go to Africa or enter into full-time pastoral ministry, your calling is still very much relevant and ever-so important. In this series we're going to take a look at what it means to make an impact right where you are in your life and how to discover what you're called to do.

Get ready to be the switch!
