HOW TO: Change the Color Scheme in the App

You are able to change the color scheme used in the Palm-Tech app. By default, the colors used are Green and Black, but you can easily change them to the desired colors by following the steps below.

1. First, tap on 'Settings' on the opening Palm-Tech screen.

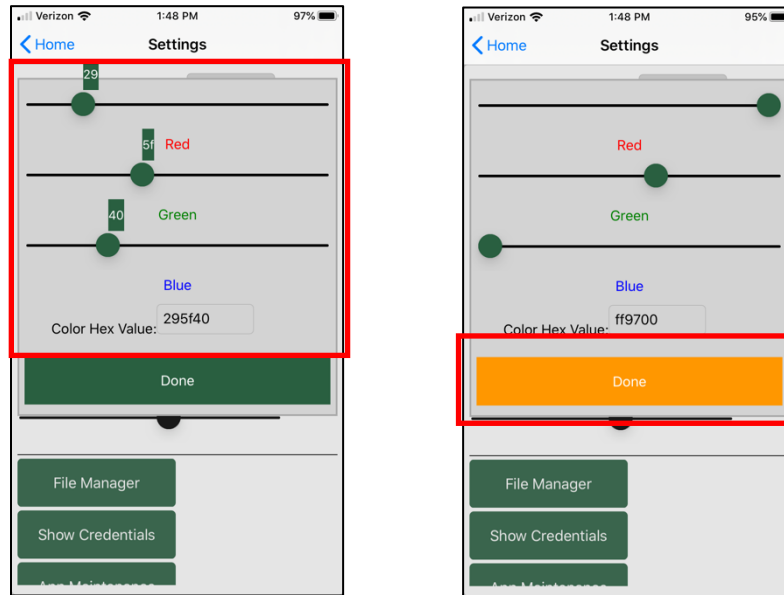

2. On the Settings screen you have the option to change both the 'Button Color' and the 'Icon Color'. You can change these by tapping on the paintbrushes next to them.

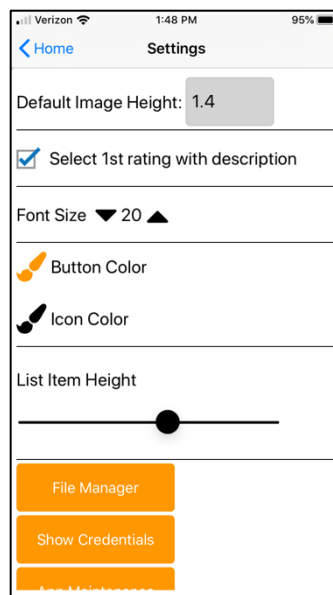

HOW TO: Change the Color Scheme in the App

3. Tapping on the paintbrush icon will bring up the color sliders to choose the color you want. You can use your finger to move the sliders as desired or you can type in the 'Color Hex Value' as well. The 'Done' button will show you what color you have chosen. Let's change the Button color from Green to Orange. Tap on 'Done' when finished.

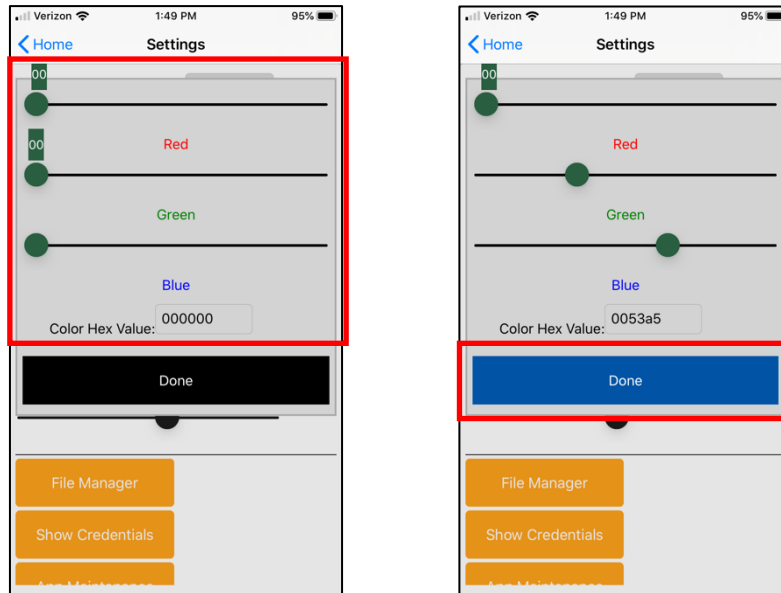

4. As you can see, the color of the buttons has now been changed.

HOW TO: Change the Color Scheme in the App

5. Now, let's change the Icon Color from Black to Blue. Tap on 'Done' when finished.

6. Both the Button Color and Icon Color have now been changed.
