How To

Run Updates for the Palm-Tech App on an Android Device

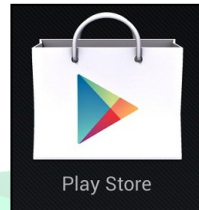

This How To article shows how to install updates to the Palm-Tech app on an Android device

For a complete list of available How To documents visit the Support section of our website: www.palm-tech.com/support/

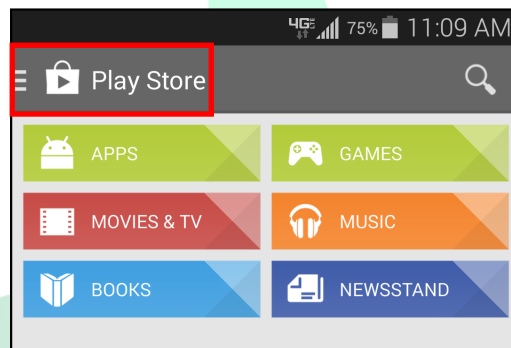

HOW TO: RUN UPDATES FOR THE PALM-TECH APP ON ANDROID

Your Android device will let you know when an update to an app is available. Typically you will see a notification for the update in your notification bar. Depending on your device and your settings this will work differently on different devices. You also may have the option to have the Palm-Tech app update automatically so you are always on the latest update.

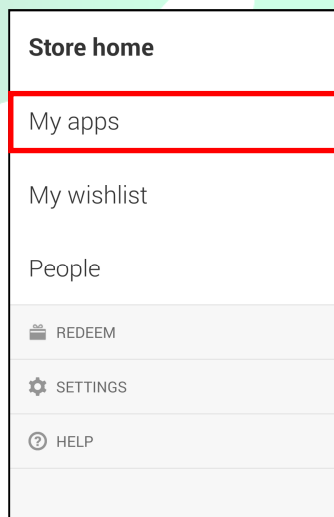

1. If you see a notification for an update in your notification bar, simply tap on it. This will take you to step 6 below where you can install the update. To manually check for an update, open the Play Store on your mobile device.

2. Next, tap on the menu button. This is typically located in the top left corner, but may vary depending on your device.

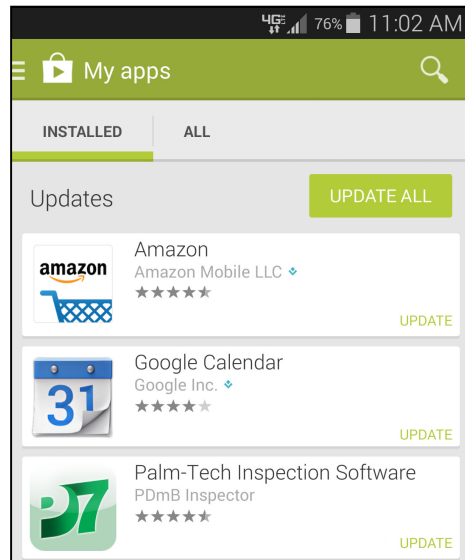

3. Here you will see options for the Play Store. Tap on 'My apps'.

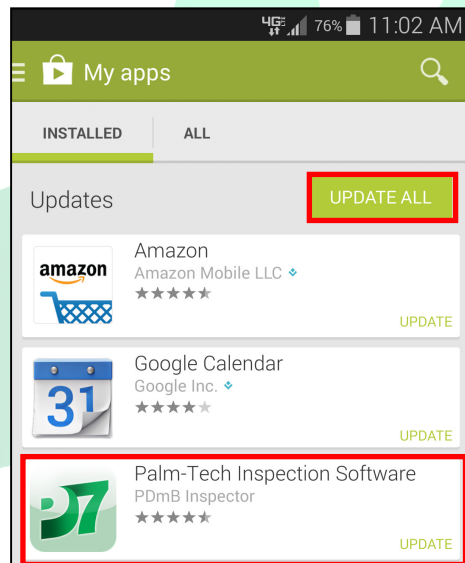

HOW TO: RUN UPDATES FOR THE PALM-TECH APP ON ANDROID

- This will bring up a list of all installed apps. Any apps that have updates available will be listed first.

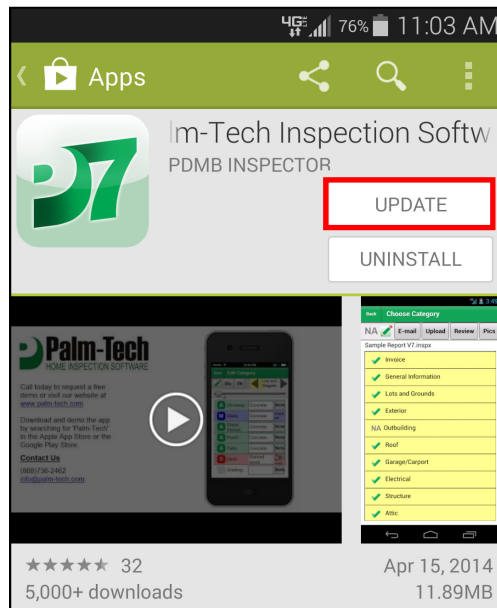

- You can update all of the apps here by tapping 'Update All'. To update only Palm-Tech, tap on the Palm-Tech app listed here.

HOW TO: RUN UPDATES FOR THE PALM-TECH APP ON ANDROID

6. To update Palm-Tech, simply tap 'Update' and the update will begin installing.

7. Once the update is finished, you can open the app by tapping 'Open'.
