How To: USE COST ESTIMATES ON THE APP

With version 7 of the Palm-Tech app, you are able to add cost estimates on the app.

1. On the Edit Line screen, you will notice a button at the top of the screen with a dollar sign on it. To enter a cost estimate, tap on this button.

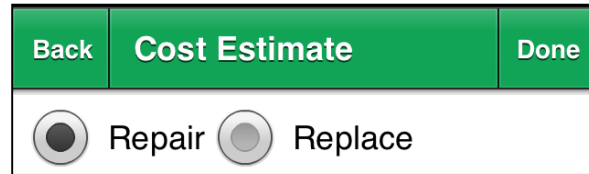

2. Tapping on this button pulls up the Cost Estimate screen.

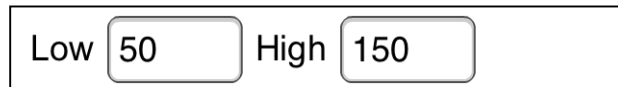

How To: USE COST ESTIMATES ON THE APP

3. Here you can choose whether you are giving a cost estimate to repair or replace the item. Select either option by tapping the circle next to 'Repair' or 'Replace'.

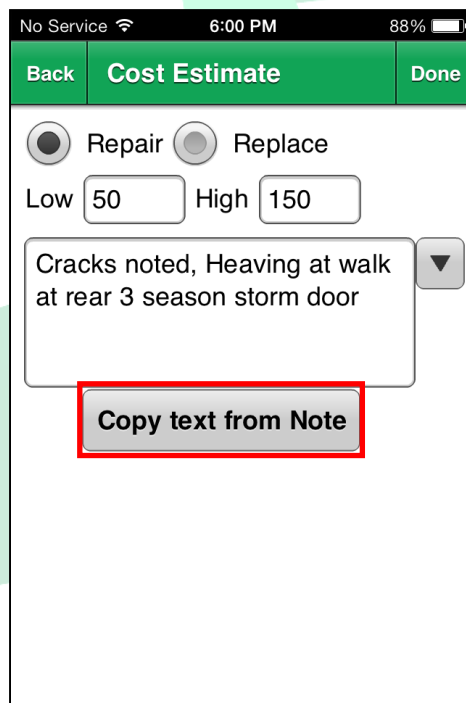

A screenshot of the 'Cost Estimate' screen. At the top, there is a green header bar with 'Back' on the left, 'Cost Estimate' in the center, and 'Done' on the right. Below the header, there are two radio buttons. The first is selected and is labeled 'Repair'. The second is unselected and is labeled 'Replace'.

4. Next, you can enter a low cost and a high cost to provide an approximate amount for the repair.

A screenshot of the 'Cost Estimate' screen showing two input fields. The first is labeled 'Low' and contains the number '50'. The second is labeled 'High' and contains the number '150'.

5. In the note box, you are able to add a note about the cost estimate. Or you can tap 'Copy text from Note' and the note that you entered on the Edit Line screen will be entered here.

A screenshot of the 'Cost Estimate' screen. At the top, there is a status bar showing 'No Service', '6:00 PM', and '88%' battery. Below that is a green header bar with 'Back', 'Cost Estimate', and 'Done'. The screen shows the 'Repair' radio button selected. Below that are the 'Low' (50) and 'High' (150) input fields. A text box contains the note: 'Cracks noted, Heaving at walk at rear 3 season storm door'. Below the text box is a button labeled 'Copy text from Note' which is highlighted with a red border.
