

# HIGH DENSITY RACK

The rack mount panel kit provides many flexible configurations in a 1U form factor. The slide-out tray can be configured to hold three adapter panels and a splice tray, or the included splice and patch module. The splice and patch module can be loaded with 12 flange style adapters and includes a two-tier splice tray with fiber management, and room for both mechanical and fusion splices.

## SPECIFICATIONS

Dimensions	17"W x 13" D x 1.75"H
Capacity	Up to 24 single fiber connections or 48 Duplex (LC) using (3) adapter panels
