MOTION TO APPROVE THE NIEM 5.2 MODEL AS AN OASIS OPEN PROJECT RELEASE

• **Chair:** A proposal to approve the NIEM 5.2 Model as an OASIS Open Project Release was provided to the PGB Voting Members for consideration as a readahead.

• **Maker:** (PGB/NTAC TSC- Duncan Sparrell) I Motion to approve the NIEM 5.2 Model as an OASIS Open Project Release

• **SECOND?**

• **Chair:** (Debate) Do any of the members have comments on the proposal?

• **Chair:** Are there any objections to approving the proposed motion?

• **Chair:** Without objection, approved

**Resolution**

- [ ] Approve
- [ ] Approve w/Comment
- [x] Table/Reject

**Rationale:**

• Submit/approve the NIEM 5.2 Model as an OASIS Open Project Release - “Release,” with respect to an OASIS Open Project, is a collection of links to resources within the project that enable the Project Governing Board to deliver software to users: https://www.oasis-open.org/policies-guidelines/open-projects-process/#releases-and-group-releases

• 5.2 was contributed so no CLA issues to contend with

• Not suggesting all documents and tools be considered just the model

• LOE is small to submit as an OASIS Open Project Release

• Decision to proceed to PSD/PS/OS can be evaluated separately later
Rationale (Cont.):
NIEM models developed prior to OASIS have been contributed to the Open Project at https://github.com/niemopen/niem-model. Each version is designated with a specific tag in the main branch.

Whereas:
1. The latest version, NIEM 5.2, will be used in the development of the first OASIS version, NIEM 6.0, and
2. The PGB has the sole authority to approve a Designated Branch as a Release per Open Project Rules.

The NTAC recommends that the PGB formally approve NIEM 5.2 as a Release. Here are the relevant links:

SECOND?

• **Chair:** (Debate) Do any of the members have comments on the proposed Amended document?

• **Chair:** Are there any objections to approving the proposed Charter Amendment *(or as corrected)*.

• **Chair:** Without objection, approved.

Proposed Resource Funding
For consideration of the NIEMOpen Project Governing Board (PGB)

July 27th, 2023
BACKGROUND

NIEMOpen Premier Sponsors designated their $20K of premium dues** to the general fund. The general fund can be used to procure supplemental services or activities, subject to PGB approval. Funds available as of Q2FY2023 are 58K. The NIEMOpen Management Office (NMO) Technical Steering Committee (TSC) has identified for the PGB specific value-add resources that will help advance the functionality of the NIEM framework and contribute to maintaining and updating model architecture, NIEM version update, and training updates.

As of June 2023, NIEMOpen has three (3) Premier Sponsor.

**Allocation may only be used during the current annual term of Premier Sponsorship. Unused funds do not roll over and are non-refundable.
OVERVIEW

The NMO TSC recommends that the value-added funding allocation be dedicated to:

1. software licensing and cloud hosting procurement
2. supplemental services that help maintain technical support and training resources

Software / Hosting Resources

These resources will include annual software licensing costs, as well as a built-in contingency for any service with a variable cost model.

It should be noted that some of these resources will likely require supplemental subject matter expert (SME) support for initial setup and deployment.

Supplemental Services

These resources would involve funding reserved for third-party vendors / service providers (including developers, content production, marketing, etc).

As an open-source project, it is important that we invest in keeping training, marketing, and tools up-to-date in order to advance NIEMOpen awareness, adoption, and implementation.
FY23-FY24
PGB Proposal Overview
FY23-FY24 PROPOSED RESOURCES

• NIEMOpen Potential Supplemental Services (GTRI Contract Update)
  • Technical support services for maintaining/managing the NIEM model architecture
  • Technical support services for updating NIEM versions (i.e., previously referred to as releases)
  • Support services to update training materials for 6.0 and subsequent model versions

Priority established by PGB at 11 April 2023 PGB

STATUS- There is a status meeting with OASIS scheduled for 24 July 2023. Updated status will be available for the PGB meeting on July 27th.
FY23-FY24 PROPOSED RESOURCES

• NIEMOpen Potential Software and Hosting Procurements

• Updates:

  — MEP Builder Hosting – hosting services for the Message Exchange Package (MEP) Builder Tool; would require an Amazon Web EC2 Service (AWS) instance w/ Docker, external third-party API sever calls (Cost Estimate Under Review)

  — IEPD/MEP Registry and Repository - hosting services for a registry/repository on NIEMOpen.org (Cost Estimate Under Review)

  — GitHub Integration for Confluence - software as a service to support automatic push/pull integration with GitHub repositories; content from repositories would populate the ‘NIEM Support Knowledgebase’ to improve search/accessibility to NIEMOpen content and provide analytics (Cost Estimate Under Review)

  — Atlassian Suite; Jira Service Desk – centralized Help Desk and Knowledgebase for NIEMOpen outreach and support requests; Service Level Agreements (SLA’s) and Key Performance Indicators (KPI’s) for communication and customer satisfaction; route tickets to specific POC’s (Cost Estimate Under Review)
FY23-FY24 PROPOSED RESOURCES

• NIEMOpen Potential Software and Hosting Procurements

The main driver of the timeline is how much time you want to spend working on the content. To drive to OS by end of year, you’d generally follow a schedule:

**Working Draft**
Spring to summer 2023
Iterative work on contributions to prepare proposed PSD. Review and recommend WD to PGB for approval as PSD

**Project Specification Draft**
Summer 2023
PGB approval of PSD. Optionally, release of the PSD for broad public review. Iterations on PSD leading to recommendation to PGB to approve as PSD

**Project Specification**
Autumn/Winter (Dec) 2023
PGB approval of the PS. Collection of statements of use. PGB approval to submit for OS. Start 60-day public review.

**OASIS Standard**
Summer/Fall 2024
End of 60-day review. Address any comments received. Hold Call for Consent. Issue press release and celebrate.
