

1959 hours

Tuesday, _____

The American Red Cross Communications Team Net will begin in approximately one minute.

2000 hours

This is (first name, call sign), Net Control for the San Diego/Imperial Counties Chapter of the American Red Cross Communications Team Net. This net meets every Tuesday at 2000 hours on this repeater. As a reminder, if this repeater is not available please meet at the backup frequency, ARC Channel 1. Stations with emergency traffic may interrupt this net at any time.

(Activity Lead report) Bob KG6RGI: if you are with us tonight, do you have any information to share with us?

(Let Bob talk. Thank him for the information.)

**Are there any additional Communications Team announcements for the net?
Call signs, please.**

(Record call signs, acknowledge each call sign in turn with person's name if known, have them go ahead with their announcement)

Are there any visitors to the net? Call signs, please.

(Acknowledge call sign; ask for first name, current location, visiting or local? If visiting, welcome to area and enjoy stay. If local, would you like to join? Thank you for checking in, we hope you will join us in the future.)

**Do we have any representatives from other partner groups or emergency groups?
These groups include, but are not limited to: ACS/RACES, ARES, CERT, MEARC, PARC, REACT, SATURN. Please respond with your call sign and group name.**

(Record call signs, acknowledge each call sign in turn with person's name if known, have them go ahead with their announcement)

This is (call sign), for identification.

This net will now check in net members by district.

If _____ is on the air, will you please check in the Northern District.

This is _____ . The Net will now check in the Northern District.

The Northern District is all areas north of Highway 52.

(call and acknowledge call signs/names from the latest list)

Are there any late or missed stations from the Northern District? Call signs, please.

The check in for the Northern District is now complete.

This is _____ , Clear.

Thank you, _____, for checking in the Northern District.

This is (call sign) for identification.

If _____ is on the air, will you please check in the Southern District.

This is _____ . The Net will now check in the Southern District.

The Southern District is all areas south of Highway 52.

(call and acknowledge call signs/names from the latest list)

Are there any late or missed stations from the Southern District? Call signs, please.

The check in for the Southern District is now complete.

This is _____ , Clear.

Thank you, _____, for checking in the Southern District. This is (call sign) for identification.

Are there any questions for the net? Call signs, please.

(Acknowledge each call sign and handle questions. Don't hesitate to invite other net members to help out.)

Since it appears there are no (further) questions...

As a team, we provide radio communications to support Red Cross disaster relief operations during wildfires, structural fires, transportation accidents, and other natural disasters and sheltering situations.

To learn more about how you can participate in this humanitarian effort, please call the Red Cross at 858 309 1261 and ask to join the Red Cross Communications Team, or visit our web site at www.redcross.org/sandiego , and click on "Volunteer".

Once again, this net meets every Tuesday at 2000 hours local on this repeater. We would like to thank San Diego ACS/RACES for the use of their repeater system.

This concludes the American Red Cross Communications Team Net. We thank all operators for helping to maintain a clear frequency.

This is (call sign), and this net is now closed.

If there are problems – repeater issues, jamming, etc. ask Net to hold, switch to Channel 1/PAL130 and verify that it is clear and available to use. If so, announce on ACS/RACES that Net is switching to ARC Channel 1.

Do not give out the frequency/repeater info for ARC Channel 1 if there is a jammer.

Ask for a volunteer to remain on ACS/RACES repeater for a few minutes to redirect latecomers to ARC Channel 1.

At Net conclusion, mention PARC and thank them for use of their repeater.

"We thank the members of the Palomar Amateur Radio Club for the use of this repeater. PARC membership supports several repeaters, three on two meters, one on 440, one on 6 meters, a digipeater, packet repeater, and ATV. PARC also hosts two 220 repeaters.

The Palomar Mountain repeaters are at 5600' and cover 2000 square miles of San Diego County and up to 100 miles out into the Pacific.

All amateurs are welcome at club meetings in the Carlsbad Safety Center the first Wednesday of the month at 7:30pm (give program if known)

You can find more information about Palomar Amateur Radio Club at palomararc.org."
