

# 3612 SD50-VFC (VERTICAL FLOODED CENTRIFUGE) PATENT PENDING

*Heinzen Manufacturing is proud to introduce the newest, most advanced flooded centrifuge available on the market today!*

## FEATURES

- All stainless construction with cryogenic ethanol compatible gaskets and seals; down to  $-80^{\circ}\text{C}$ .
- Adjustable operation parameters through an HMI touch screen, sequence times, sequence rpm, total fill volume.
- Multiple, programmable sequences.
  - Fill, soak, bi-directional agitation, drain, centrifuge.
  - Multiple recipes stored for easy recall.
- C1D2 drive and components.
- Urethane isolated base frame.
- Interchangeable, internally supported, drawstring basket liners with multiple filtration options for optimal free, even distribution during centrifuging.
- Simple loading and unloading of material.
- Oversized, oil bath lubricated, lower bearing assembly for long service life.
- Optional: Jacketed construction for extended temperature regulation.

## SPECIFICATIONS

- Soak/Agitate/Dry Time: Programmable
- Basket Capacity: 3.5 cubic feet
- Load Weight: Up to 100#, dependent on product bulk density
- Cycles/Hour: Programmable, nominal 3-4
- RPM: Programmable to 1500 rpm

*Show unit shown*

## PRODUCTS

- Cannabis
- Botanicals
- Aromatics
- Hemp
