

## 2208 SHAFT END COVERS

*Now available as a stock item through Heinzen, enhancing safety in any operation!*

### FEATURES

- Greatly reduces the potential for a catch-point from a rotating shaft
- Easily mounts to any Heinzen equipment with pillow-block bearings and gear box shafts
- Allows for sanitation access between the cover and equipment

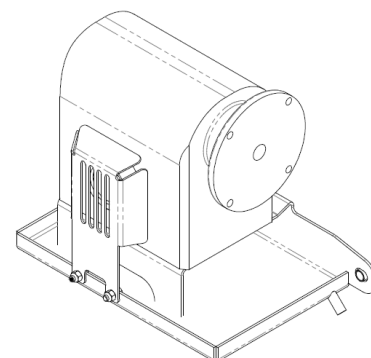

### OPTIONS/SPECIFICATIONS

- 304SS, a highly corrosion-resistant material
- Available in two sizes for shaft end and gearbox cover
