

Longjumeau, March 28<sup>th</sup> 2018,

## Meet PCAS team at Printed Electronics Europe 2018 exhibition

On April 11<sup>th</sup> and 12<sup>th</sup> 2018, PCAS will exhibit at the Printed Electronics Europe 2018 trade fair in Berlin (Germany), one of the most important exhibition for the printed electronics industry.

Our Sales and R&D representatives will be pleased to welcome you on AFELIM's booth.

PCAS is a technology-oriented specialty chemicals company serving multinational industrial customers, developing innovative organic and inorganic compounds for printed electronics applications (OPV, OLED, OFED, OPD, sensors...).

PCAS custom manufactures conductive and semi conductive polymers (polythiophenes, polycarbazoles...), small molecules and sol-gels for transparent conductive electrodes.

For more information or to schedule a meeting, please get in touch with:
