

## Press release

### Thomas Swan to exhibit at IDTechEx, Graphene & 2D Materials Event in November

The Advanced Materials Division of Thomas Swan and Company Ltd – the leader in high quality Graphene materials production is exhibiting at the IDTechEx Graphene & 2D Materials Event on 14<sup>th</sup> and 15<sup>th</sup> November 2018, in Santa Clara, USA.

If your business has the need for materials with improved mechanical performance, electrical conductivity, thermal conductivity, gas barrier properties then please come and visit us at **booth X28** where we will be presenting a range of speciality advanced materials, which include:

- Elicarb® Graphene powders, dispersions and plastic masterbatches.
- Elinova®2D – Boron Nitride powders, dispersions and plastic masterbatches.
- Elicarb® Single Wall Carbon Nanotubes.
- Elicarb® Graphene Inks

We would be delighted to discuss your individual project needs and will be able to update you on our production capability.

Both technical and commercial leaders will be available at the exhibit and we will be happy to answer your questions. We look forward to seeing you there.
