Printed Electronics USA Awards 2009

Recognizing Innovation. Success. Development.
www.idtechex.com/awards

IDTechEx Printed Electronics Awards recognize company innovation, success and development. The award ceremony will be held at the industry's largest gathering – Printed Electronics USA in San Jose, December 2/3, bringing together companies from around the world.

The Awards are hosted by IDTechEx, a leader in providing independent global research and analysis on the development and application of printed and potentially printed electronics (organic, inorganic, composite).

If you would like your company to be recognized for outstanding achievements in the following categories simply follow the entry instructions. Any company operating within the printed or partially printed, organic or thin film electronics market is welcome to apply.

You can enter one or more of the following categories:

- **Technical Development Materials Award**
This award will be given to the most significant technical development over the last 24 months (August 2007- August 2009) in the field of material development.
- **Technical Development Manufacturing Award**
This award will be given to the most significant development of a manufacturing device, process or production plant in the industry over the last 24 months (August 2007- August 2009).
- **Best New Product Development Award**
This award will be given to a company who has launched a new product based on photovoltaics or printed electronics and is in the process of bringing it to market. The category will be assessed on the technical development of the product, its potential market, and benefits it brings over alternatives.
- **Best Commercialization Award**
This is the award given to an actual commercial success with an end product using photovoltaics or printed electronics. Judges will look for success in terms of products sold and revenues generated.
- **Academic Award**
This award will be given to an academic research organization that has made a significant contribution over the past 24 months to the understanding of the principles and accrued knowledge behind printed electronics or photovoltaics.

The winners will be announced at the Printed Electronics/Photovoltaics Awards Dinner at The Ballroom Marriott Hotel, San Jose part of Printed Electronics/Photovoltaics USA Conference.

HOW TO ENTER

All award's submissions must be received by October 16th, 2009, emailed directly to Chris Clare at c.clare@idtechex.com.
