

PixoTest® POCT COVID-19 Antigen Testing

End-to-end digital COVID-19 screening
solution for outbreak prevention.

Fast and smooth COVID-19 screening

Fully digitalized system enables rapid on-site testing and validation

Prevent fake negative test reports

Built-in authentication mechanism facilitates community risk control

Reduce risk of test result misinterpretation

Minimize potential misinterpretations by human eyes in
challenging testing environments

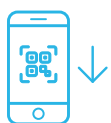

Advantages & Benefits

Reopen borders, restore mobility.

How it works:

Access Point Testing

Access Control

1 INSTALL APP

Travelers register an account on PixoHealth Pass APP. Testee ID (QR code) is then generated as a unique ID.

2 SCAN QR CODE

Use the PixoTest POCT Analyzer to scan the Testee ID (QR code) on PixoHealth Pass APP.

3 TAKE TEST

Perform the testing on PixoTest POCT Analyzer.

4 SEE RESULTS

Travelers receive their digital test result on PixoHealth Pass APP.

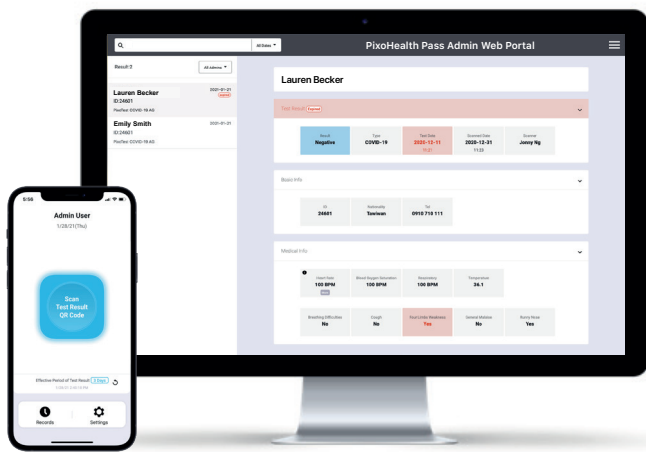

5 SCREEN PASS

Staff validate the PixoTest result by using PixoHealth Pass Admin APP at point of entry.

PixoHealth Pass

Admin App & Web Portal

Travel Solution

PixoHealth Pass Admin App

- Easy-to-implement risk management tool
- Verify the authenticity of test report and sync health data with one simple QR code scan

PixoHealth Pass Admin Web Portal

- GDPR-compliant health management platform
- Track test results and COVID-19 related symptoms
