HARVEST NOTES: 2020 -Everything about this year has been unforeseeable. Luckily the grapes were somewhat immune. Spring was on time with very little threat or damage from frost followed by a long and moderate growing season. We did get a hot spell that reduced the grapes on the vine and some areas struggled. Worse were the fires that caused smoke to hang in the air for days. We were extremely worried about a potentially memorable vintage ruined by smoke taint. We tested everything and are confident we dodged a bullet. Whew! Look forward to full bodied reds and aromatic whites.
