OVERVIEW
60-80 words

Cabernet Dorsa is a native grape of Germany and a rare find in America. This wine is grown on the hilltop of our Blind Faith Estate Vineyard in Paso Robles. Cabernet Dorsa is a cross of Cabernet Sauvignon and Dornfelder. This variety is very similar to Cabernet Sauvignon, but it is darker in color and usually has more tannin structure. The first red grape to arrive at the winery, this variety marks the start of harvest every year.

HARVEST NOTES
Niels U.
60-80 words

2017 was a picture perfect growing year with late heat. Early bud break and substantial soil moisture from the above average and much-needed rain caused the grapes to grow rapidly and build beautiful canopies which ended up being crucial later. A sustained heat wave hit California, and the vines with adequate canopy survived well. It was a rush to the finish line before the rains arrived. Overall – fully mature grapes and excellent wine.
