

LOGOS Connect, a powerful online social network, enables students and staff to interact seamlessly offering access to all the essential data required on and off grounds.

We at LOGOS have transformed the physical bulletin board into a virtual space, wherein students can view recent posts shared by the seminary. Students can also choose to view posts from different categories as per their preference of interest.

Populi: This is an authenticated applet for students to access the Student Information System & LMS, where they can check the list of courses, then for each course students can check the grades, schedule and transcripts.

Contact Admission: This applet helps the student to enquire the degree program information who all are seeking admission at Logos Evangelical Seminary.

Study Tools: This applet contains several Bible study tools for students where they can navigate to access - Word Study, OT Parsing, NT Parsing, Bible Verse Lookup, Bible Hub, Commentaries.

Donate - Anyone wants to donate for the seminary can access this applet.

Resources - Once this applet is accessed it further navigates to access - News, Events, Maps, Library.

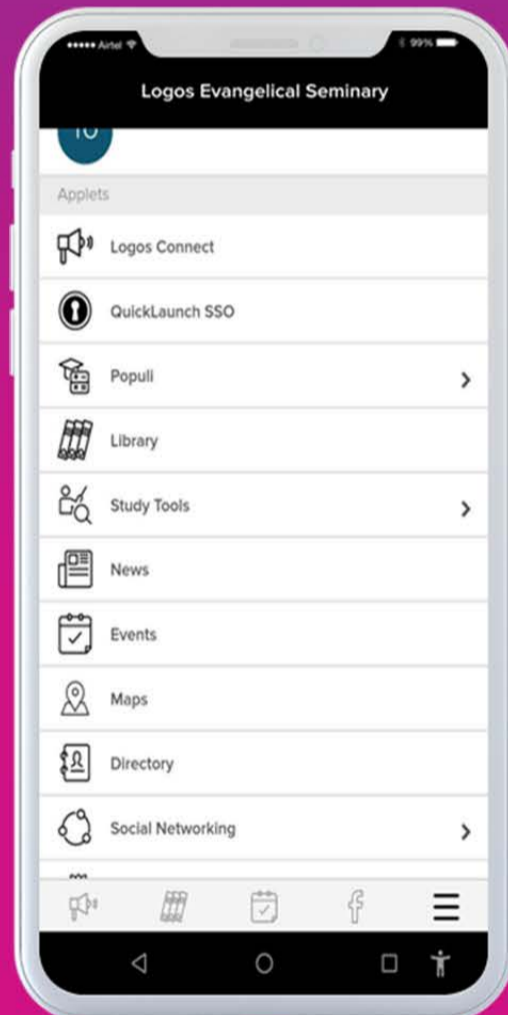

Social Networking – This allows students to access the Seminary Videos and Facebook.

Directory – This applet can help the student to access the directory of the campus and find contact information of relevant faculty, staff, department and executive management.

QuickLaunch SSO: This helps the end-user to frequently access the SSO apps via Mobile, and the user needs to login only once.

Contact Support: Users can contact support team and raise any issue related to the mobile app.

Setting – This allows students to setup preference on the campus mobile app and change the current settings as per their requirement. Students can also select email notification for all of the connect posts.
