

# LIFE LC-11

## Commercial Series™

### Alkaline Mineral Water Ionizer

*Creates Healthy Water from the Tap*

More plates in the ionizer means greater surface area, and more powerful, higher capacity water flow. That means that this ionizer can handle the high-volume demands of your commercial establishment. The LIFE Ionizer™ LC-11 packs all of the functionality and stylish design of its personal-use predecessors, but this machine can also handle commercial-use output volume with a 5L/min filtration capacity.

*Can handle the high-volume demands for many applications.*

### Description

- Eleven (11) large Platinum coated Titanium electrode plates!
- Eight (8) levels - four (4) alkaline, three (3) acidic and one (1) purified
- Big LCD screen (different color LCD display)
