About MAPS
Founded in 1986, the Multidisciplinary Association for Psychedelic Studies (MAPS) is a 501(c)(3) non-profit research and educational organization that develops medical, legal, and cultural contexts for people to benefit from the careful uses of psychedelics and marijuana.

MAPS furthers its mission by:
- Developing psychedelics and marijuana into prescription medicines
- Training therapists and establishing a network of treatment centers
- Supporting scientific research into spirituality, creativity, and neuroscience
- Educating the public honestly about the risks and benefits of psychedelics and marijuana.

MAPS envisions a world where psychedelics and marijuana are safely and legally available for beneficial uses, and where research is governed by rigorous scientific evaluation of their risks and benefits.

Current Research

Posttraumatic Stress Disorder (PTSD) Treatment
Our top priority is developing MDMA-assisted psychotherapy into a legal, FDA-approved treatment for PTSD. Our studies are showing that MDMA-assisted psychotherapy can help people overcome debilitating PTSD caused by sexual assault, war, violent crime, and other traumas.

Social Anxiety in Autistic Adults
MAPS sponsors research into MDMA-assisted therapy for the treatment of social anxiety in autistic adults. This is the first time MDMA-assisted therapy has been explored in clinical research for this population.

Drug Addiction Treatment
MAPS investigates treatments for opiate dependence using ibogaine, a traditionally used psychoactive compound from West Africa, which has been shown to help reduce opiate withdrawal and may help overcome or reduce other addictions. MAPS also supports research on ayahuasca-assisted therapy for substance abuse and dependence.

Anxiety Related to Advanced-Stage Illness
MAPS supports research into LSD- and MDMA-assisted psychotherapy for anxiety related to advanced-stage illness. Our recently published study of LSD-assisted psychotherapy in Switzerland was the first study of LSD in humans completed in almost 40 years.

Medical Marijuana
MAPS is the only organization working to demonstrate the safety and effectiveness of whole-plant marijuana as a prescription medicine. Our upcoming study of marijuana for symptoms of PTSD in 76 veterans will take place in Phoenix, Ariz., funded by the State of Colorado.

Education

MAPS educates the public about the risks and benefits of psychedelics through the tri-annual MAPS Bulletin, a monthly Email Newsletter, and groundbreaking books on psychedelic research. MAPS.org keeps track of the latest research news and hosts the world’s largest online collection of psychedelic research papers.

MAPS’ educational conferences and events provide researchers and attendees with unique networking opportunities and help scientists share knowledge with the wider public. maps.org/events

Harm Reduction

This year, millions of people will use psychedelics outside of supervised medical contexts, many of them for the first time. Many users and their friends are unprepared to address psychedelic-induced crises if they arise. To address this need, MAPS supports psychedelic harm reduction and education services at events around the world and maintains an online resource library.

Zendo Project
The Zendo Project is an onsite harm reduction service providing a tranquil space and compassionate care for people having difficult psychedelic experiences at festivals and other events.

“Together, we can make psychedelics and marijuana into legally available prescription medicines within our lifetimes.”
—Rick Doblin, PhD, MAPS Executive Director

Funding

Since our founding in 1986, MAPS has disbursed over $36 million to developing psychedelics and marijuana into prescription medicines and to educating the public honestly about the risks and benefits of these substances. Every dollar has come from visionary donors committed to our mission. For-profit drug companies have not invested because these compounds cannot be patented and are taken only a few times. We’re also encouraging government agencies and major public foundations to support our research. For now, the continued expansion of psychedelic research relies on the generosity of individual donors.

Yes, I support psychedelic and marijuana research!

- $50
- $100
- $250
- $500
- $1000
- Other $____

I will support MAPS year-round with a monthly gift of $____

- Check or money order enclosed
- Charge my Visa, MasterCard, American Express, or Discover
- I wish this gift to be anonymous
- Restrict this gift to

My email address is:

- I want to receive the MAPS Email Newsletter!

Give $50 or more ($60 international donors): Receive the tri-annual bulletin.
- Print version
- Electronic version available at maps.org/bulletin

Give $100 or more ($120 international donors): Receive one of the following MAPS-published books. Please select one:
- Ayahuasca Religions by Beatriz Caiuby Labate, PhD, Isabel Santana de Rose, PhD, and Rafael Guimarães dos Santos, PhD
- Healing with Entactogens by Torsten Passie, MD
- LSD: My Problem Child by Albert Hofmann, PhD
- LSD Psychotherapy by Stanislav Grof, MD, PhD
- The Healing Journey by Claudio Naranjo, MD
- Ketamine Papers edited by Phil Wolfson MD and Glenn Hartelius, PhD
- The Manual of Psychedelic Support edited by Annie Oak, Jon Hanna, Kaya, Sven Nilsted, Twilight, and Zocor Minnor, PhD
- The Pot Book (MAPS Edition) edited by Julie Holland, MD
- The Secret Chief Revealed by Myron Stolaroff, MS
- The Ultimate Journey by Stanislav Grof, MD, PhD
- No book: Maximize my donation!

Give $250 or more: Receive the above benefits with the option of choosing Modern Consciousness Research and the Understanding of Art, including the Visionary World of H.R. Giger by Stanislav Grof as your one book of choice. Also includes a gift of a one-year Bulletin subscription for a friend or colleague.

Give $1,000 or more: Receive a silver MAPS logo pendant and invitations to special interactive webinars with MAPS executive staff, plus all of the above benefits. Select one or both:
- Silver MAPS logo pendant
- Interactive webinars

Join MAPS

There are many ways to help. Sign up to volunteer at maps.org/volunteer. Help people understand psychedelic research by subscribing maps.org with friends and colleagues. Also consider supporting our work at maps.org/donate.

Join thousands of others who want to see these tools approach with reason and care. Help make psychedelics and marijuana into prescription medicines.

MAPS Store

The MAPS Store features books, DVDs, art prints, clothing and accessories, historical artifacts, and back issues of the MAPS Bulletin. All proceeds help support MAPS’ research and educational projects. Visit the MAPS Store at events and online at maps.org/store.

“By giving to MAPS, I’m actually investing in the future of modern medicine. I know I can help make it a matter of ‘when’ without any ‘if’s in there at all.”

— Karl, MAPS supporter

PSYCHEDELIC SCIENCE 2017

APRIL 19-24, 2017 • OAKLAND MARriott CITY CENTER • CALIFORNia

Psychedelic Science 2017 is a six-day global gathering with three days of conference programming, full-day workshops, a cruise on the San Francisco Bay, a comedy banquet, a free and expansive marketplace of goods and ideas, and much more. For conference videos and more, visit psychadelicscience.org.
