

Skinner's Verbal Behavior: An Update on the 1982 Reference List

Mark L. Sundberg and James W. Partington
Regional Center of the East Bay, Oakland, CA

Last year Sundberg and Partington (1982) presented a list of 136 references relevant to Skinner's book *Verbal Behavior*. Since that time a substantial number of new references have become available. The current list contains 41 papers, chapters, or books that have been published (or presented) on verbal behavior during the past 12 months. Also, the list contains 16 additional references which were not included in the 1982 list, but were available before 1982. We thank those of you who contributed references to these lists.
