

# CLASSIFY IT! GAME #2

*Classify It Game #2 is a good game for getting children to develop their understanding of different math vocabulary such as odd and even, equal to, greater/less than and between. It also helps to develop quick recall of addition facts of 3 small numbers.*

**Age range:** 1<sup>st</sup> Grade +

**Number of players:** 2-3

**Learning:**

- Adding up the numbers on 3 dice
- Odd and even numbers to 18
- Vocabulary:
  - o More/Greater than
  - o Smaller/Less than
  - o Between ... and ...

**You will need**

- Each player will need 8 counters of the same color.
- 3 dice. You can always roll 1 dice three times and write down the numbers if you do not have 3 dice.

**Instructions**

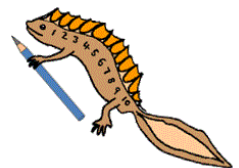

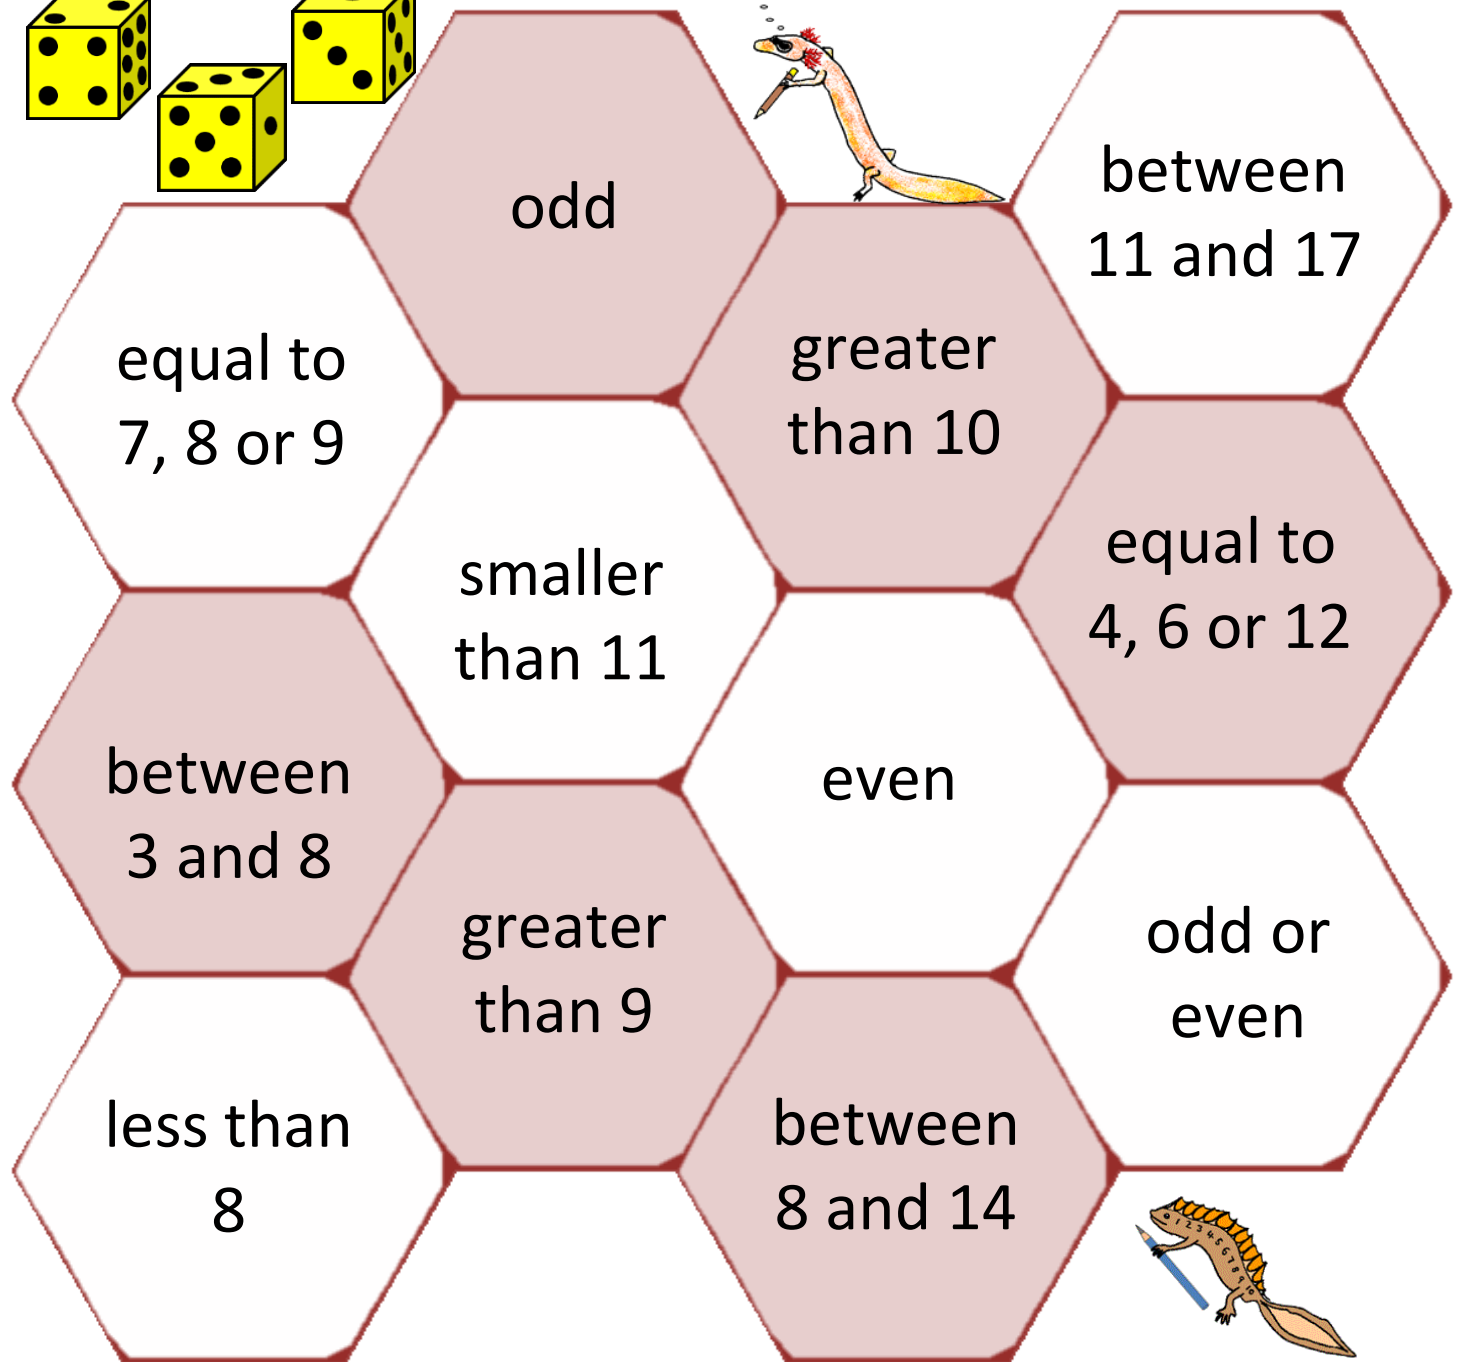

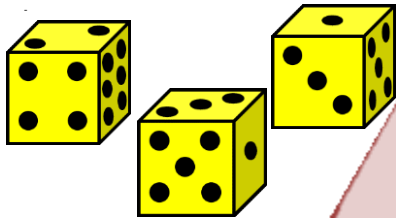

- Each player takes turns to roll the dice and add them up. The player then chooses one classification hexagon on the board which matches the total they have rolled. They cover this hexagon up with a counter.
- If a person cannot find any hexagon which matches their number, they pass the dice on to the next player.
- The game finishes when all the hexagons are covered up.
- The winner of the game is the person who manages to cover up most hexagons.

**Variations**

- Alternative winning strategy:
  - o The winner of the game is the first person to get 3 counters in a row (vertical or diagonal)
- Use a 20-sided dice instead of three 6-sided dice

# CLASSIFY IT!

## GAME #2

Odd	1	3	5	7	9	11	13	15	17	19
Even	2	4	6	8	10	12	14	16	18	20
