

# SALAMANDER BIG DIVISION GAME

**Age range:** 4<sup>TH</sup> Grade+

**Number of players:** 2-3

**Learning:** Divide with multiples of 10

**You will need**

- 20 counters in different colors (one color per player)
- A calculator

## Instructions

- Player 1 chooses a numbers from the top of the game board and divides the number by a number from the bottom row. Player one says the division calculation and the answer.
- Player 2 checks with a calculator. If Player 1 is correct, he/she places a counter on the number that has been made. If Player 1 is incorrect then no counter is placed.
- Player 2 then chooses a number from the top row and divides it by a number from the bottom row. Player 1 uses the calculator to check.
- The winner is the first person to complete an unbroken path of 4 counters (path can go across, down, diagonally).

## Variations

- If you are playing with 3 players, one player can be the referee who checks all the answers using a calculator.
- If you get an answer wrong, your partner can remove one of your counters from the board.

# SALAMANDER BIG DIVISION

Choose a number from each of the rows below and work out the division fact.

120	320	240	360	280	200	270	420
20	30	4	5	60	70	8	9

Four in a line wins!

4	60	40	30	50	90
10	2	50	70	4	80
30	7	40	9	10	6
4	50	8	30	7	40
9	6	20	60	8	30
40	2	50	7	5	80
