

## CHRISTMAS TREE CHALLENGE 3

---

Captain, Sally and Tyger Salamander have put out their presents under their Christmas trees. Each tree has at least **four** presents.

Altogether, there are 18 presents in total and each tree has an even number of presents.

How many presents *could* be under each tree?

There are 10 possible answers. How many can you find?

---

## CHRISTMAS TREE CHALLENGE 3 ANSWERS

Captain, Sally and Tyger Salamander have put out their presents under their Christmas trees. Each tree has at least **four** presents.

Altogether, there are 18 presents in total and each tree has an even number of presents.

How many presents **could** be under each tree?

There are 10 possible answers. How many can you find?
