Tucked away on a quiet dead-end street just minutes from town, this Jasper home offers comfort, convenience, and thoughtful updates throughout. Built in 1985 and situated on a .4-acre lot, the property features a level front yard, welcoming front porch, spacious driveway parking, a 24x24 carport, and a one-car drive-under garage. The main level is designed for easy everyday living, featuring a primary bedroom, laundry room, and a warm great room with a gas log fireplace. The home also includes wheelchair-friendly additions, including an exterior elevator/lift that provides access to the back deck and a 3.0 door leading into the primary bathroom, which was added to better accommodate wheelchair accessibility. The kitchen is functional and inviting, with appliances that were replaced just a couple of years ago. Upstairs, you'll find two guest bedrooms with new carpeting and fresh paint, along with a full bathroom. Outdoor space adds even more flexibility, with an area ideal for camper parking complete with electric and water hookups. The lower level includes a covered patio that could accommodate a hot tub. With plenty of parking, accessible features, and a close-to-town Jasper location, this property offers a rare combination of practicality and charm.
